## The Northwest Difference

The **Instrumental Music Education** major certifies students to teach in K-12 music classrooms. The degree includes instruction in instrumental music, elementary general music, basic knowledge of all band and orchestra instruments, curriculum development and classroom management, and working with students of special needs and diverse populations, along with applied and ensemble experiences.

### CAREER OPPORTUNITIES

**Northwest** boasts a high placement rate for Music Education majors seeking employment and those who continue their education within six months of graduation.

### PROFESSION-BASED LEARNING EXPERIENCES

Education majors get **experience** in the classroom starting in their freshman year. The Northwest education programs are dedicated to ensuring students are career-ready and prepared for the first day of school.

Profession-based teaching **observation** provides students an opportunity to observe a teacher for 30 hours during their first two years. Students interact with professionals in the field and learn the operations of a classroom and good teaching practices.

During the sophomore year, students participate in a **field experience** that involves outlining a unit plan and teaching lessons in grades five through nine.

During the junior-year **practicum experience**, students spend 90 hours in the classroom teaching lessons, integrating technology and literacy, engaging learning strategies, and using assessment to guide instruction.

During the senior-year **student teaching experience**, students prepare lessons and teach in both the elementary and secondary music classroom for a total of 16 weeks.

### INSTRUMENTAL ENSEMBLES

Students have the opportunity to participate in numerous ensembles across their time at Northwest, including Bearcat Marching Band, Symphonic Band, Wind Symphony, Symphony Orchestra, Jazz Band, Studio Jazz Band, Basketball Pep Band, musical pit orchestra, show choir pit orchestra, and various chamber groups, along with choral groups if they wish.

## Music Education Extended Certification

The **Music Education** extended certification can be added onto the Instrumental Music Education major. This is not a major or minor, but an extended certification that meets Missouri teacher certification requirements in both instrumental and vocal music, K-12. These graduates are equipped to teach in both the instrumental and vocal music classrooms, elementary and secondary levels.
