That was the plan, there are 7th and 8th grade math teachers at all of the middle schools.

Were you planning to place all eight math students at Truman?

Good morning,

I am in the process of getting confirmation for you on your proposal for the math students. These students are supposed to go to Truman Middle School so I wanted to talk to the principal before I told you this would be ok. Sorry for the delay we have been on break for 2 weeks.

Rhonda

Rhonda,  
Have you had a chance to consider this request?  
Thank you,  
DG
Rhonda,
Could we bring about 16 secondary education students back to St. Joseph the week of April 8-12?

This is my class make-up as of 12/6/12; I usually pick up a couple more.

2 Unified science: Earth Science
3 Instrumental  Music
8 Math *(We know math teachers are sometimes reluctant to have a student around MAP-test-prep time. Our suggestion would be to put them to work as a second pair of hands to help get them ready for the test.)*
3 Family & Consumer Science
16 total

Thank you,
Dan Gordon
