As a Professional Education Unit (PEU) that envelops multiple content areas and faculty/student backgrounds, we seek to not only define diversity but also to enrich the diversity of our Unit. In an effort to achieve this, our Unit has reviewed various sources to assist us in refining our conceptual understanding of the idea of diversity. Below are some of the items we consulted.

**Northwest University Mission:** Northwest Missouri State University focuses on student success - every student, every day.

**Northwest Values relating to diversity:** Intercultural competence

**College Vision:** The vision of the College of Education and Human Services is to provide highly competent professionals who are lifelong learners, reflective thinkers and ethical leaders exemplifying the ideas of literacy, scholarship and social justice in a diverse and ever-changing world.

**PEU Handbook – Philosophy and Objectives:** Allow the Candidate to work with students from diverse backgrounds. These may include, but are not limited to, age, gender, ability, ethnic background, race, socioeconomic status, grade level, and cultural background.

**PEU Vision:** The Northwest Missouri State University Professional Education Unit prepares highly effective, ethical, professional educators who possess the knowledge, skills and professional dispositions in order to embrace the responsibility for the learning of all children in a diverse and dynamic society.

**PEU Handbook, Graduate Diversity Hours Sheet:** According to NCATE cultural diversity is defined as the variety of cultural backgrounds of candidates, faculty and school personnel based on ethnicity, race, language, religion, socioeconomic status, gender, regional/geographical background and exceptionalities. NCATE does not consider diversity of regional or geographic origins, religion, or language groups to be good faith representation of wide-range cultural diversity.

**State Glossary of terms:** Differences among groups of people and individuals based on ethnicity, race, socioeconomic status, gender, exceptionalities, language, religion and geographic region. From: http://dese.mo.gov/divteachqual/teached/Examiners_Handbook/documents/Glossary_final_.pdf

**NCATE Definition of Diversity:** Differences among groups of people and individuals based on ethnicity, race, socioeconomic status, gender, exceptionalities, language, religion, sexual orientation, and geographical area. The types of diversity necessary for addressing the elements on candidate interactions with diverse faculty, candidates, and P-12 students are stated in the rubric for those elements.

**Similar University Comparison:** University of North Carolina at Charlotte- The College of Education at UNC Charlotte is committed to social justice and respect for all individuals, and it seeks to create a culture of inclusion that actively supports all who live, work, and serve in a diverse nation and world. Attaining justice and respect involves all members of our community in recognizing that multi-dimensional diversity contributes to
the College’s learning environments, thereby enriching the community and improving opportunities for human understanding. While the term “diversity” is often used to refer to differences, the College’s intention is for inclusiveness, an inclusiveness of individuals who are diverse in ability/disability, age, economic status, ethnicity, gender, language, national origin, race, religion, and sexual orientation. Therefore, the College aspires to become a more diverse community in order to extend its enriching benefits to all participants. An essential feature of our community is an environment that supports exploration, learning, and work free from bias and harassment, thereby improving the growth and development of each member of the community.

**Northwest Missouri State PEU Diversity Definition:**

This search has led us to a better understanding and a further refinement of the meaning of diversity. Below you will find Northwest PEU Diversity Definition:

Northwest Missouri State University defines diversity as differences and similarities among people by ethnicity, race, socioeconomic status, gender, exceptionalities, language, religion, sexual orientation, and geographical area.

Diversity Hour Experience

**Description:** Degree seeking undergraduate/graduate students and post baccalaureate students seeking teacher certification are required to complete a 30 hour diversity experience/six hour diversity experience.* It is expected that this will be a meaningful experience through which the student will evaluate assumptions about teaching/administration/counseling in diverse settings and reflect on how the experience may alter those assumptions. The overall goal is to enable the student to observe/interact within and reflect on effective educational practice in diverse settings.

*See approved types of diversity experience in the Diversity Document.

**Procedure:**

1. Some options for the type of experience include:
   - School visit
   - Job Shadowing
   - Teacher Exchange
   - Observation of a classroom/another setting
   - Volunteer work
   - Other as approved by COTE Diversity Team

2. Upon completion of the diversity experience, submit the Diversity Form to the Teacher Education Student Services Office (Administration Building 350).
