¹Biology 102/103 may be waived with two years of high school biology.

²A student with a poor background in Chemistry should take Chemistry 112/113 before Chemistry 114/115. Also needs to have taken Algebra II in high school.

³Biochemistry 24-362 may be substituted for 24-562, but is offered only in the Spring.

⁴Suggested elective hours: business management, medical terminology, foreign language

Professional schools vary in pre-requisites that are required for admission. For example, some schools may require calculus while others require foreign languages. You need to determine the specific requirement for each school to where you plan to apply. Much of this information may be found on the web or by writing the respective admissions office.
