Introduction

As an educational institution that strives to prepare students for successful careers, it is important to continuously evaluate the post-graduation status of Northwest Missouri State University's graduates. Career Services surveyed the previous academic year (summer, fall, spring) graduates and organized the data to provide Northwest stakeholders with a near accurate view of "first destination" employment and continuing education statistics. The data reported is six months after graduation (industry standard).

Methodology

Information Collected

Graduates are initially asked to verify general demographic information. All changes are forwarded to and processed by the Registrar for future interactions with them as alumni clients. In the second section of the survey, candidates share their post-graduation status (employed, continuing education, seeking employment or other). If the graduate indicates an employed status, he or she is asked to indicate the job title, name, address of employer and starting salary. Graduates continuing their education are asked to disclose the program of study and institution they plan to attend. The "other" category includes individuals actively choosing to neither seek employment nor continue their education. The Career Services staff continually attempts to contact all graduates disclosing a "seeking" status to offer job search assistance. The final section of the survey is a data collection point for the Northwest Alumni Association. The graduate self reports each activity or organization he or she was involved in while attending Northwest.

Data Collection Method

The placement information contained herein was obtained through an extensive six-month process. The process was initiated prior to "cap & gown" pick-up with an email asking graduates to complete an online survey. A hardcopy document is available at "cap & gown" and supplemented with another email to online only graduates and those not participating in the graduation ceremony. For those graduates not captured at commencement and for those who had previously indicated they were seeking employment, a follow-up email is sent at four months. If no response is received by six-months post-graduation, an effort is made to connect via two telephone attempts. Career Services conducts social media research prior to sending an email to the faculty advisor in the event the new graduate has shared post-graduation data with him/her. Non-participants in all aforementioned steps are considered "no responses" and are not calculated into the report.

Data Analysis

Undergraduate and Master degree data were analyzed separately. The data is further divided by college, department and major. Totals are calculated for each major, department and college for the entire academic year. In accordance with FERPA guidelines, graduate responses are reported without disclosing the individual's identity.

Booth College of Business and Professional Studies

College of Education and Human Services

Averaged Student Satisfaction on a Scale of 1 (not satisfied) to 5 (very satisfied)

Realignment from 19 departments to 11

College of Arts and Sciences

Major(s)	Response to: "We welcome your comments or suggestions for new graduates seeking a job with your major in your field."
Accounting & Statistics: Actuarial Science	Take advantage of what Career Services offers
Art	Stick with it.
Art	Don't hold back!
Art Education	I got my job after visiting the Education Expo. I spoke with the employer, got an interview for the following week, and was offered the position right after my interview. The Education Expo provided me the greatest opportunity thus far in my career. It is a must-go for education majors!
Art Education	Take student teaching seriously. It is your first opportunity to get your foot in the door within a school district. I student taught in the district that I was hired. Go into student teaching with a plan of where you would like to end up.
Biology/Psychology	Do an internship.
Biology/Psychology	Do not wait to look for jobs!
Biology/Psychology	Get your grad school applications started in advance.
Biology/Psychology	Had a wonderful experience at Northwest
Biology/Psychology	Career Services helps out a lot when making decisions on furthering education or looking for jobs.
Biology: General Biol Emphasis	Internships are great!
Biology: General Biol Emphasis	Send out applications early.
Biology: Zoology Emphasis	I am working at this company while I apply to positions related to my major.
Business Technology	Internships! Makes it difficult to get job without them.
Chemistry	It's difficult and overwhelming, but it's so worth it!
Chemistry (ACS Accredited)	Take the initiative. Begin looking ahead in your education and plan your coursework in advance in the event you are able to pursue multiple majors and/or minors. Seek summer research opportunities in places outside your comfort zone.
Clinical Laboratory Sciences	Hospitals accept you a year in advance. Advertise the program better.
Comprehensive Crisis Response & History	Definitely apply for internships early in your college career because USA JOBS takes forever to respond.
English	Northwest provides a lot of services that are helpful in order to gain experience or if you have questions or need advice they have services to help you in any aspect: classes, future career, internships, how to make a resume, Hire A Bearcat, etc. Take advantage of these while you can!
English	Be ready to show off any writing you have! Do not be bashful!
English	Make sure to get in some form of internship before you graduate.
English	It's tough getting a job right now, so start early and devote a lot of time and energy to it!

Realignment from 19 departments to 11

College of Arts and Sciences

Major(s)

Response to: "We welcome your comments or suggestions for new graduates seeking a job with your major in your field."

English (BSEd)	Helping and caring for students must be your number one priority. If you're going into education because you want an "easy job" then you should find another major. Don't just sit back and take things as they come to you. You need to push yourself to do more. Be a self-advocate. Finally, make sure you talk to your teachers so that all of your requirements are met. There isn't a lot of communication about what you need to do during student teaching, especially the TWS, double check with your teachers and peers so you get everything done.
English Education	Look for all opportunities. My position came from attending Education Expo.
Geography	Get an internship. It will help a lot.
Geography	Don't get discouraged when you don't get the first job you apply for.
Geography	Try and do an internship. I have done four different internships with three different companies. They really helped me narrow down what I wanted to do in my career. Whether it be in the public or private sector or working inside or outside, an internship is the way to go. Also try and find an autoCAD class to take. Every job I am looking for requires some autoCAD and Northwest does not offer it. So whether it be at a community college or Missouri Western take some autoCAD
Geology: Environmental	Do Internships!
Geology: Environmental	Do an internship! Need masters and experience of up to three years. Take chem 2 and other programs.
Geology: Environmental	Don't get discouraged when you don't get the first job you apply for.
IDM: Visual Imaging	Don't put job searching off until the last minute. Also, work really hard and join a lot of clubs - and don't procrastinate.
IDM: Visual Imaging	Start internship search early!
Instru Music Educ/Non Piano	You cannot be picky about where you get your first job. It may not be where you want, but it is experience. Make the sacrifice and go where the job is. If you have your heart set on teaching in the city, you are competing against more qualified people with more experience. Look everywhere and you never know what you may develop somewhere else.
Marine Biology	Get as many volunteering hours as you can and network your way as best as you can to your perfect job.
Mathematics Education	Do all that you can!
Music	Enjoy your time here
Organizational Communication	Keep your options open for positions and try new things.
Organizational Communication	Internship after freshmen year and every year after year
Political Science	If you want to develop advanced critical thinking skills as well as master the art of academic writing, the Political Science major is definitely a great program. Don't worry if some say that the job market for this particular major isn't great, the world of politics, law and public administration can be a wonderful and rewarding job market to be in and exciting as well.
Political Science	Look for internships
Public Relations	Freshman video said go to resume critiques and "Mock" Interview Day - go! That video was right!

Realignment from 19 departments to 11

College of Arts and Sciences

Major(s)

Response to: "We welcome your comments or suggestions for new graduates seeking a job with your major in your field."

Public Relations	Take as many internships as you can. Gain hands-on experience through Knacktive, PRomo, Capstone, and others. Above all, be friends with everybody because you could count on them for connections very soon!
Social Science	Continue checking online for job openings
Social Science	Highly recommend resume critiques and "mock" interviews for everyone!
Social Science	Be patient
Social Science	Talk to Career Services, work on campus at a job related to your major if possible.
Spanish	Spanish and Business and Marketing- more useful than Art.
Speech/Theatre Education	Always Network!!!! Build relationships, try not to burn bridges, and most of all get involved!!
Speech/Theatre Education	Work hard; do it all. You're the best by doing things outside of the textbook.
Theatre: Performance	There were no theatre jobs available through Career Services. I have to audition for shows. I can't just apply.
Theatre: Technical and Design	Do an internship when you can and don't burn bridges.
Vocal Music Educ/Voice	Network a lot; use people you know!
Vocal Music Educ/Voice	Take every opportunity and always ask questions - no matter what the answer might be.
Wildlife Ecol & Conservation	Get as much field experience as you can, that is what really counts!
Wildlife Ecol & Conservation	Study hard. Start looking for jobs early.
Wildlife Ecol & Conservation	Internships are a vital resource for making contacts in the job sector and would highly recommend to others in the Wildlife Major.
Wildlife Ecol & Conservation	Get as many volunteering hours as you can and network your way as best as you can to your perfect job.
Wildlife Ecol & Conservation	After graduation, keep going. Something will come up.

Booth College of Business and Professional Studies

Major(s)

Response to: "We welcome your comments or suggestions for new graduates seeking a job with your major in your field."

Accounting & Business Management	Don't give up.
Accounting	Make sure you do at least one internship, it is very helpful to get a job.
Accounting	Try to pursue a job while you're still in school.
Accounting	Keep an open mind; you never know where you will end up!
Accounting	I tried using Career Services to find a job after graduation, but that didn't really help me much. I found my job through a professor. We had a lot of job opportunities told to us from them, and I took advantage of that.
Accounting	Definitely complete an internship. Even if it turns out you don't like the specific job or line of work you complete it will be a great networking tool and learning experience.
Accounting	Get involved in different activities and make friends especially in your major area. Finally, STUDY, STUDY, AND STUDY! It will pay off before you know it!
Advertising	Career Services does not cater to the Mass Communication Department in terms of helpful advice for resumes. Student with a "creative" major such as; IDM, Advertising, Applied Advertising, etc. have a different way of doing resumes that Career Services doesn't understand or help with. I actually refuse to get help from Career Services in regards to my resume for that reason.
Agricultural Business	Interning is a biggie; get out there and see if this really what you want to do.
Agricultural Business	Work hard keep you head up it will all be ok.
Agricultural Business	Go to Career Services they help a lot. Resume critiques were awesome and got compliments on it by employers.
Agricultural Business & Business Management	Never underestimate the power of networking and take advantage of the programs that Caerer Services put on. I would not have discovered the company I now work for if not for Career Day and if I hadn't taken the time to get to know people that I went to class with and interacted with on campus. I went to Career Day and stopped to talk to a Northwest Alumni that I knew. He was working for Rensenhoe Electric and after talking for a while I asked him about the company and signed up for a next day interview for an internship. I got the position and then three months later I got a job offer and accepted. If not for Career Services and networking I would never have heard of Rensenhoe Electric.
Agricultural Business	Get all the help you can from advisors.
Agricultural Business	I had around 11 credit hours that transferred into NWMSU from high school. I would highly suggest someone doing the Agricultural Business major to also do a minor like I did. It is doable in four years. One summer I took two classes to make sure I would get everything done. Adding a minor will make you more marketable when you look for a job. I would highly suggest the Precision Agriculture minor if a person was at all interested in that area. The minor I took in Precision Agriculture is the reason why I got the job I did after graduation.
Agricultural Education	The Northwest Ag Ed program prepared me academically for student teaching. It gave me the tools, resources, and experience to be successful.
Agricultural Education	Start looking for a job early.
Agricultural Education	Take a variety of courses since you will be teaching a variety of classes. Don't just take classes you think will be easy or you have background knowledge in.
Agricultural Science	Don't limit your options to what your major is.
Agricultural Science	A great major for agriculture students who have an interest in agriculture but do not necessary want to study just one area in agriculture!

Realignment from 19 departments to 11

Booth College of Business and Professional Studies

Major(s)

Response to: "We welcome your comments or suggestions for new graduates seeking a job with your major in your field."

Agricultural Science	Internship, Internship, Internship...
Agricultural Science	Pay attention in class.
Agricultural Science	Start looking early!
Agronomy	Get as much field experience as you can.
Agronomy	Need more, this field is one of the fastest growing in agriculture
Agronomy	Learn as much as you can
Agronomy	Get as many internships as possible.
Agronomy	Do internships.
Animal Science	Be patient.
Animal Science	Be open minded and work your network.
Applied Advertising	Avoid using Career Services if your major falls within the realm of Mass Communications. They may have the best interest in mind for students but they don't fully understand the Media Industry or how best to serve students. Take part in an internship, even if not required.
Applied Advertising	Network, Network, Network!
Broadcasting	Be socialized/active. Don't be shy; communication is important!
Broadcasting	Take every opportunity and always ask questions - no matter what the answer might be.
Broadcasting	Internships are pretty important, get one.
Broadcasting	Took me six months to get a job so keep applying and don't get down on yourself!
Broadcasting	Go after more than one area of study.
Broadcasting	Apply early for jobs.
Broadcasting	Network; participate in internships.
BT - Agriculture	Participate in Career Day and Mock Interview Day
BT - Agriculture	Stick with it and work hard. Don't get discouraged if you don't find a job right away.
Business Economics	Use Career Services!
Business Economics & International Business	Use Career Services and attend the events.
Business Education	Start looking early, you can student teach and have the job at same time.
Business Management	Attend Career Day
Business Management	Work hard
Business Management & Marketing	Get as many internships as you can; employers are looking for experience!
Business Management & Marketing	Be more involved with Career Services
Business Management & Marketing	Hunt for jobs right away!
Business Management	Use Career services as much as you can and prepare your resume as soon as you can.
Business Management	Be committed to getting a job and you will.

Realignment from 19 departments to 11

Booth College of Business and Professional Studies

Major(s)

Response to: "We welcome your comments or suggestions for new graduates seeking a job with your major in your field."

Business Management & Marketing	Get an internship and get involved (extra curricular)
Business Management	Get at least one master's degree.
Business Management & Marketing	Work on your resume.
Business Management & Marketing	Double major; do both marketing and management not just one
Business Management	Plan ahead! Don't wait until the last minute; take it seriously.
Business Management & Marketing	Get good grades!
Business Management	It may take time and you might put in countless job applications, but do not get discouraged just keep applying and you will find a good place to work that fits you.
Business Management & Marketing	Try to get an internship close to your major; people want related experience.
Business Management & Marketing	Get as much experience as you possibly can
Business Management & Marketing	Start your job search early. Work with Career Services
Business Management	I have been employed with Donning since 2006. Earning my degree I was able to become a supervisor within the company.
Business Management	Wish I did an internship. Loved study abroad experience in China.
Business Management	Do internships; they open doors to other places and get you started somewhere and work up.
Business Management & Marketing	Internships are huge. Have as much experiences as you can.
Business Management & Marketing	Start looking for a job before you graduate. Enjoy college while you can! Go Bearcats!
Business Management	Participate in internships!
Business Technology	Career Day is VERY important.
Business Technology	Think outside the box
Business Technology	Pursue an internship, could lead to higher salary
Business Technology	Career Day would have been more helpful
Business Technology	Expand your horizons, things aren't always how you think.
Computer Science	Do more internships must learn in the real world ** more import than school...get results
Computer Science	Start your job search before you graduate. Do projects outside of class work to show employers and to get your feet wet.
Computer Science	Enjoy your time here
Computer Science	Career Services is great as far as resumes and screening interviews goes, so they can make it easy to get to the technical interview. However, the Career Services department offers little in the way of completing technical interviews. Real technical interviews are an all day affair, and have you doing algorithmic and data structure problems on a whiteboard while explaining what you are doing/thinking to the interviewer. Keep in mind that Career Day is also not very good for those in our major. Garmin and Cerner show up to look for Computer Science majors, and that's about it. You can drive 7 hours east to Urbana-Champaign's career fair and have 40 companies looking for CS majors specifically. Also, be sure to consult instructors and classmates for help. Often they know a good answer, or can point you in the right direction. The best resource at Northwest are your classmates and the instructors. It makes going to Northwest worthwhile in an education and professional experience!

Booth College of Business and Professional Studies

<u>Major(s)</u>	<u>Response to:</u> "We welcome your comments or suggestions for new graduates seeking a job with your major in your field."
Finance: Corporate Finance	Get involved in different activities and make friends especially in your major area. Finally, STUDY, STUDY, AND STUDY! It will pay off before you know it!
Finance: Corporate Finance	Try to pursue a job while you're still in school.
Finance: Corporate Finance	Definitely compete an internship. Even if it turns out you don't like the specific job or line of work you complete it in it will be a great networking tool and learning experience.
Finance: Corporate Finance	Don't slack off.
Finance: Financial Management	Career Services is more than willing to help with anything and everything job related that you might need. Use them! I think that between the help I got with my resume and my practice interviewing through mock interviews, they definitely attributed to me finding full time employment upon graduation. Thank you Career Services!
Horticulture	Get as many internships as possible.
Horticulture	Took a domestic study trip to California and it was worth every penny. Taking this for credit hours allowed me to see a different aspect of my major and now I know what I want to do with my future. Don't have your heart set on one location
Horticulture	Focus more on Spanish speaking
IDM: Computer Sci Programming	Take the internships!
IDM: Computer Sci Programming	Get an internship!
IDM: New Media	It is a lot harder than you think it is; just keep trying!
IDM: New Media	Career Services is a great way to get your resume critiqued and look for jobs
International Business & Marketing	If you are a business major the Career Fair is highly valuable. I didn't realize that I would get so many contacts and ultimately a job from this event. Both my Cerner and Federal Reserve Bank interviews started with contacts at the Career Fair.
International Business & Spanish	Study hard, study abroad, have fun, get experience- you get out of it what you put into it.
Journalism	Plan ahead. Be open to leave surroundings. Save money so you can leave or find work.
Journalism	Go to class
Journalism	Work&sports.com, similar to career builder but for sports journalism
Marketing	Internship was big for grad school- excited I had an internship
Marketing	Wish Northwest had more sports related majors
Marketing	Coming to Northwest was the greatest decision I have ever made. I met the most amazing people, had the best professors, and feel ready to enter the real world. Here is a tip for those who aren't graduating...Network often and early...whether in class or at the bar. You will thank yourself later.
Theatre: Performance	Go after more than one area of study.

College of Education and Human Services

<u>Major(s)</u>	<u>Response to:</u> "We welcome your comments or suggestions for new graduates seeking a job with your major in your field."
BT - Other	This opportunity to complete my business degree online was life-changing. I appreciate the fact that I could be home with my son and also complete my degree. I worked full-time and didn't want to be away from him all evening, so the ability to take online classes helped me to reach my goals. Thanks Northwest!
Child and Family Studies	Stick with it, don't give up.
Child and Family Studies	I suggest that people pursuing this profession really engage as much as possible while you are in class and take initiative in your learning, even if the teacher is frustrating or unengaged, because you never know what career you will end up with and what information you may want later.
Child and Family Studies	Pursue Career Services - it can be helpful.
Child and Family Studies	I did my internship with Preferred Family Healthcare, we are currently still discussing the position I will be taking and the salary since I am soon to be promoted from Residential Technician. The information provided is what we have discussed most recently. I am sad that this major is no longer available because I really enjoyed everything I learned and the place I currently work because of it. The suggestions I can share with other graduates in similar majors is to take advantage of Career Services and the internship experience. They are the reason I have such good connections after graduation.
Child and Family Studies	Start applying early
Elementary Education	It's more than just being in front of the kids.
Elementary Education	Loved my college years at Northwest and would change nothing. Great college
Elementary Education & Special Educ:Cross Categorical	Go to Education Expo- Where I got my job.
Elementary Education	Too much emphasis on teacher work samples.
Elementary Education	Horace Mann is completely different from other classrooms but is a great experience
Elementary Education	Participate in mock interview and pay close attention to the classroom presentations! Mock interview is an especially invaluable experience that you'll wish you had taken part in if you don't. It feels like getting your first professional interview out of the way and the first is always the most nerve racking. Student teach in the district where you want to work. Substituting helps!
Elementary Education & Special Educ:Cross Categorical	Take every advantage to learn about RTI while at Northwest. There was a huge focus on this in my school district!
Elementary Education	Work hard.
Elementary Education & Special Educ:Cross Categorical	Practicums are the best!

Major(s)	Response to: "We welcome your comments or suggestions for new graduates seeking a job with your major in your field."
Psychology	Get into grad school right away. Take every opportunity you can.
Psychology	If a person wants to pursue a MA or PhD, they need to look into programs by sophomore year to see what is required to be accepted into the programs.
Psychology/Sociology	Being able to have my resume critiqued and doing a mock interview both with Career Services certainly prepared me for a couple of job interviews. Also, their presentation to our Career Path Class was invaluable. Thank you again for all your hard work!!
Psychology/Sociology	Pray about it
Psychology/Sociology	Become involved
Psychology/Sociology	Take advantage of all that Northwest offers. Jobs are at there and it is possible to have one lined up before graduating. Use your Northwest resources and work hard and it will happen.
Psychology/Sociology	Get the most experience you possibly can while in school; finding a job after graduation is difficult but the more experience you have the better.
Psychology/Sociology	Follow your dreams: find your passion and find out how to do what you love and do it. It's never too late to change your major or change your mind. Make sure you're happy, and you'll never work a day in your life.
Psychology/Sociology	Network
Psychology/Sociology	Glad I went to Northwest. Was able to connect with teachers and people I never thought I would have.
Recreation: Corp Rec/Wellness	I recommend that every student seek an internship, work hard and strive for a possible job position/career within that agency.
Recreation: Corp Rec/Wellness	Apply to as many places as possible! The worst they can say is no. I had the opportunity to do an internship at Harvard University (yes, that Harvard) and it was a great experience and this summer I will be interning with Mizzou Athletic Performance in Columbia Missouri. My dreams are slowly coming true and this is all helping me reach my goal and attaining that job I want.
Recreation: Corp Rec/Wellness	Liked the teachers in recreation departments. They were very hands on.
Recreation: Rec & Park Mgt	Make sure you love it!
Recreation: Rec & Park Mgt	This is currently a part time position
Recreation: Rec & Park Mgt	ANYBODY: Keep an open eye and be prepared to learn anything
Recreation: Rec & Park Mgt	This is not a full-time job, it provides me with 900 hours of pay then a \$2,500 education grant that will be used to help pay back student loans. I will continue to apply for full-time jobs while working in this position.
Recreation: Therapeutic Rec	Liked the teachers in recreation departments. They were very hands on.
Recreation: Therapeutic Rec	I have had an amazing time at Northwest. Had an awesome internship and can't wait to join the work force with the knowledge and experience I have learned at Northwest

<u>Major(s)</u>	<u>Response to:</u> "We welcome your comments or suggestions for new graduates seeking a job with your major in your field."
Geographic Information Science	Online program was very good.
History	It was much more difficult to gain admission into a doctoral program than I had anticipated, and I was unable to find a school to admit for the Fall after my graduation.

Booth College of Business and Professional Studies

<u>Major(s)</u>	<u>Response to:</u> "We welcome your comments or suggestions for new graduates seeking a job with your major in your field."
Applied Computer Science	Keep pushing
Applied Computer Science	Interview skills, prepare! Study well, do your research.
Applied Computer Science	Northwest provides good classes and projects really help
Applied Computer Science	Apply for multiple companies
Applied Computer Science	Northwest is the best place in my life which helped me to sharpen my skills both technically & personally. It provided me with wonderful services as part of my studies. Of all Career Services department meant a lot to me. They are so kind, prompt, helpful in answering my questions that boggled in my mind, guiding me to choose the best path in my career. My professors were really cool in teaching latest stuff and I like my department. I found amazing, crazy and wonderful friends for the rest of my life. Be yourself, meet new people, explore new things, ask questions, never feel shy and don't miss the fun.....that's what I learned in my graduation....Good Luck...:-) Aim high... Stars are the limit... Smile always... Hasta la Vista..!!
Applied Computer Science	Good major, companies are growing.
MBA	Utilizing Career Day was a life saver, by utilizing it every year. I was able to speak with Target last spring about internships and positions, and then was able to reconnect with them this fall and received a job after interviewing with them.
MBA	Northwest is fantastic! Great online program!
MBA	Highly recommend Northwest's program. Very successful.
MBA	Great major taught by great teachers
MBA	St. Joe Center goes fast, still glad I have the degree even though my job isn't related. Great experience!
MBA	The University didn't stress the importance of the exit exam and when communicating to leaders on campus I felt more like a number instead of a person.
MBA	Wasn't able to get elective last trimester because of class rotation, took it at Pitt State

MBA	Take full advantage of Career Services, they are very helpful in being prepared for contacting companies. SIFE is a fantastic organization to be a part of, not only do you gain a lot of experience that can prepare you for the work environment but also gain great connections to companies all across the United States that aren't at the career fairs at Northwest. I was able to make connections and find my job with Bimbo Bakeries USA in Clifton Park, NY through a SIFE Career Fair.
MBA	Take advantage of the opportunities Career Services offers! Career Services allows students the opportunity to develop relationships with employers early on in their college career. When you go to apply for jobs and internships later on, this relationship is really important. If it weren't for the opportunities Career Services gave me, I wouldn't have my job today.
Tchg: Instructional Technology	There are very few jobs in this field.
Tchg: Instructional Technology	Technology changes fast so you never stop learning. Don't be afraid!
Tchg: Instructional Technology	It's a good opportunity. Your degree with open up a lot of opportunities.
Tchg: Instructional Technology	My advisors at Northwest helped me get ready for life out of school. Probably wouldn't be where I am without them.

Applied Health Sciences	The most beneficial and rewarding experience in my program was the internship. I interned at Heartland Regional Medical Center in St. Joseph, MO. I worked as a Wellness Specialist intern for Heartland's Wellness Connections department. It was an educational experience and I do not think I would have enjoyed the program as much without it.
Applied Health/Sport Sciences	Pursue every opportunity available; work hard to be the best in your field, there are a lot of candidates.
Ed Leadership: K-12	Students going into education need to get out of Horace Mann and get better more realistic experience.
Ed Leadership: K-12	K-12 endorsement- elementary ed. one year, high school 2nd year
Educational Leadership: Sec	Northwest is a great school no matter what center you take your courses. I would recommend to anyone going down the education path.
Guidance and Counseling	Be yourself.
Health and Physical Education	With budgets you have to be open to all locations
Higher Education Leadership	Learn as much from the full-time professionals in your cohort as you can. Use them as a resource if you also work on campus.

College of Education and Human Services

<u>Major(s)</u>	<u>Response to:</u> "We welcome your comments or suggestions for new graduates seeking a job with your major in your field."
Higher Education Leadership	Time management is key in this program. Do not put off the big projects until the end as they can easily be accomplished in chunks throughout the 2 year program. Apply everywhere, don't settle for just one school.
Reading	Schools cannot afford to "pay" for your additional education...don't do it just for additional money.
Reading	Loved the program!
Reading	Special Ed. is a great field to get into
Reading	I got my job with Norborne through Education Expo. Northwest looks awesome on your resume
Recreation	Enjoyed the experience! I would highly recommend a career in recreation.
Recreation	Professors take a lot of time to answer questions and push you to finish strong.
Special Education	Have experience in the classroom.
Teacher Leadership	I have been in my position for 5 years. I received my job during my student teaching in my undergraduate years through UMKC.
Teacher Leadership	I resigned from teaching to stay home with child.
