## How it Works

1. Families are encouraged to **provide the names and addresses of 5-10 potential sponsors** (friends, family, neighbors) to pledge a fixed amount to support the student's participation in 7 hours of science, technology, engineering, math and arts activities and events.
2. **Letters will be mailed to sponsors**
3. **Pledges may be made on-line or by completing the paper pledge sheet.**
4. On April 21, **each student will participate in activities/events that include science, technology, engineering, math, and the arts.**

## What Will the Money Raised Go Towards?

All funds raised will **support the integration of science, technology, engineering, arts, and math for all students** at Horace Mann.

# STEM-A-THON

*Fundraiser - April 21, 2017*

Student's Name: \_\_\_\_\_ Grade: \_\_\_\_\_

Name	Address	City	State	Zip

*Return to the school office by February 10, 2017*
