

# Northwest Missouri State University

## Policy and Procedures Manual

**Chapter** Finance

**Section** Student Health Insurance

### I. Purpose

The purpose of this policy is to explain that health insurance is available through the University for all students. The insurance company sets the premium. Northwest simply serves as the collection point and forwards the payment to the company.

### II. Policy

All international students are required to show evidence of insurance coverage. International students are advised to seek guidance from the Intercultural and International Center Director's Office to explain the established procedure to follow to meet this requirement. International students are required to purchase the health insurance available through the University if they do not have evidence of other coverage.

Insurance brochures can be obtained from the Cashiering Office.
