

Northwest Missouri State University

Policy and Procedures Manual

Chapter Health and Safety

Section Fire Code

A copy of the Fire Code follows this page. It is recognized as the authoritative source by which all properties owned by Northwest Missouri State University must comply in relation to fire safety measures. The Code identifies the minimum requirements for fire protection and life safety and is considered to be in the best interest of all persons who come into direct contact with Northwest. The Code may be supplemented by requirements as set forth by the most current edition of the National Fire Protection Association's National Fire Codes in the event that conditions arise that are not included within the Code.

Anyone having questions regarding this policy should call Campus Safety at 562-1254 or the Health and Safety Manager at 562-1475.
