Laptops

Full-time undergraduate and graduate students will receive a laptop to use while studying at Northwest. Your laptop comes fully loaded with all of the software you need to be a successful student, including Microsoft Office. This helps create a level playing field, as all students will have the tools they need to complete assignments.

Laptops can be used at the many wireless hotspots around campus or by Ethernet hook-ups in your room and around campus.

When you arrive on campus, you can pick up your computer from the Rickman Computer Support Center. This is also where you will return your computer at the end of the year.

If you have problems with your laptop, simply contact your PERT (your in-hall technology assistant) or call the Computer help-desk at 660.562.1634. Students also have the option of keeping their laptops over the summer for a charge of approximately $50.

At Northwest, we've got your technology needs met.
