

# Introducing the *Great Northwest Leadership Series* Spring 2018 Session

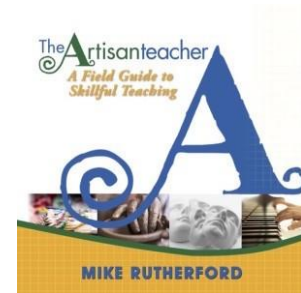

## Supporting and Developing Effective Teaching

Using the 23 Artisan Teacher Themes to better see, understand, and develop excellent instruction in all classrooms

### The Artisan Teacher

Featuring Mike Rutherford, Rutherford Learning Group

**Date:** April 13  
**Time:** 8:30-3:00 pm  
**Location:** St. Joseph

#### **As classroom observers, do we know what we see, or do we see what we know?**

There is compelling evidence that our language (what we call something) strongly impacts our thinking (what we notice). The language we choose and use to describe an episode of excellent instruction, not only helps us organize our thinking, it determines what we are able to recognize, and then develop, in our staff.

Join Mike Rutherford, author of *The Artisan Teacher: A Field Guide to Skillful Teaching*, for a day of learning how to use Artisan Teacher themes, such as Personal Relevance, Mental Models, Performance Feedback, and Complementary Elements to see, understand, and support skillful teaching.
