Reduce Your Paw Print: Bale It!
Northwest is purchasing a baler this summer as part of Facility Service’s ongoing recycling efforts. The University has been awarded a Northwest Missouri Regional Solid Waste Management Grant totaling nearly $15,000 to fund the project. Grant funds will be used to purchase, transport, and install a baler to integrate into the existing on-campus recycling operation. The baler will give Facility Services the ability to store recyclables and transport them to market when the prices are most favorable.

Quote of the Month
“The world is moved along, not only by the mighty shoves of its heroes, but also by the aggregate of tiny pushes of each honest worker.”
- Helen Keller

Safety Tip
Wear clothes that breathe. Nothing should be too tight. This will allow fresh air to flow over your skin and help you stay cool.
Facility Services Employees of the Month

Custodial Services
Crystal Lindsey was the Custodial Services Employee of the Month. Crystal is a student worker and has been helping in Millikan, Phillips, and Tower Suite West this summer. The full-time custodians feel she is an exceptional worker. Crystal is a self-starter and takes it upon herself to do what needs to be done. She never has to be checked on and understands the needed thoroughness of each job.

Landscape Services
Danny Smith was chosen as the Athletic Grounds Employee of the Month. Mid-May, Athletic Grounds was suddenly without a supervisor due to an illness. At the same time, a student work left to pursue an International internship. For 3 weeks, Athletic Grounds was short handed and without a supervisor. Danny stepped right into the leadership role and helped make it through one of the busiest times without missing a beat.

Project Team
Sheldon Scadden was recognized as the Project Team’s Employee of the Month. Sheldon has been working on the Brown Hall Early Childcare Center renovation, installing all the electrical wiring for switches, outlets, and the fire alarm simplex system. The project was started several months behind schedule, but is now back on track thanks to the hard work of the Project Team. The team is hustling to complete the project before school begins or the children will not have a place to go to school. Sheldon has been a major contributor to the Project Team’s success, working above and beyond the call of duty to help reach goals.

The Facility Services office would like to thank everyone who helped with their relocation.

Special thanks to: Tim Carlyle, Steve Chor, Tina Frueh, Deb Rauch, Rosemary Roberts, Chris Redden, Rick Allen, Mike Adwell, Andrew VanSchoiack, Dylan Parry, Calee Scott, Joe Frueh, Dave Stith, David McClintock, Brandon Saxton, John Redden, and John Viau
