

SAFETY DATA SHEET

LESCO PROSECUTOR RTU

Section 1: Material Identification

Product Name: LESCO Prosecutor RTU
EPA Reg No.: 19713-607-10404
CAS NO: 38641-94-0
Formula: C₆H₁₇N₂O₅P
Company: LESCO, Inc.
1385 East 36th Street
Cleveland, OH 44114

Synonyms:

Identifiers:

EINECS: 254-056-8
RTECS: 1008312GP
DOT label: non-regulated

Emergency Telephone Number:

CHEMTREC
Tel: 1-800-424-9300

LESCO, Inc.
800-347-4272

This product is an EPA FIFRA registered pesticide. Some of the classifications on this SDS are not the same as the FIFRA label. Certain sections of this SDS are superseded by federal law governed by EPA for a registered pesticide. Please see **Section 15. REGULATORY INFORMATION** for explanation.

Section 2: Hazard Identification

(As defined by the OSHA Hazard Communication Standard, 29)

GHS classification

Eye irritation	Category 2B
Aquatic toxicity Acute	Category 2

GHS label elements

Signal word	Warning
--------------------	---------

Hazard statement	Causes eye irritation Toxic to aquatic life
Precautionary statement	
Prevention	Wash exposed skin thoroughly after handling. Avoid release to the environment.
Response	If in eyes: Hold eye open and rinse slowly and gently with water for several minutes. Remove contact lenses, if present, and easy to do. Continue rinsing. If eye irritation persists: Get medical attention.
Storage	Store in a cool, dry, well ventilated, and secure area designated specifically for pesticides and away from heat sources. Do not store near children, food, foodstuffs, drugs or potable water supplies.
Disposal	If wastes and/or containers cannot be disposed of according to the product label directions, disposal of this material must be in accordance with your local regulations.

Section 3: Composition Information

<u>Components</u>	<u>% By Wt.</u>	<u>OSHA PEL:</u>	<u>ACGIH TLV:</u>
Active Ingredient:			
Isopropylamine salt of glyphosate	2.0%	N/Av	5 mg/m ³
Inert Ingredients:	98.0%	N/A	N/A
*The product contains a nominal concentration of 2.0 % w/w of active as its isopropylamine salt which is equivalent to 1.48% w/w active glyphosate (CAS 1071-83-6)			

Section 4: First-Aid Measures

Have the product container or label with you when calling a poison control center or doctor or going for treatment.

If in Eyes: Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

If Swallowed: Call a poison control center or doctor immediately for treatment advice. Rinse mouth with water then have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious or convulsing person.

If on Skin or Clothing: Rinse skin with plenty of water for 15 to 20 minutes.

If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

Section 5: Fire Fighting Measures

Fire Hazards: Closed containers may rupture if exposed to excess heat or flame due to a build-up of internal pressure. Thermal decomposition during a fire can produce fumes and irritating gases.

Flammability classification (OSHA 29 CFR 1910.1200): N/A

from heat sources. Keep in original containers and keep containers closed when not in use. Do not store in excessive heat. Do not store near children, food, foodstuffs, drugs or potable water supplies.

Section 8: Exposure Controls/ Personal Protection

Exposure Limits: TLV Glyphosate 5 mg/m³

Personal Protection:

LABEL PRECAUTIONARY STATEMENTS

Hazards To Humans and Domestic Animals: **CAUTION:** Causes moderate eye irritation. Harmful if absorbed through skin or swallowed. Avoid contact with skin, eyes or clothing.

Users should: 1) Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. 2) Remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. 3) Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

Eye/Face Protection: Wear safety glasses with side shields or chemical splash goggles to prevent vapors or mists from entering the eyes. If using a full face shield, always use safety glasses or goggles along with the face shield to ensure adequate protection of the eyes.

Skin Protection: If repeated or prolonged contact wear chemical resistant gloves. Applicators and handlers must wear long sleeved shirt, long pants and shoes with socks. Safety shower should be located in immediate work area. Remove contaminated clothing immediately, wash skin area with soap and water, and launder clothing before reuse or dispose of properly. Items which cannot be decontaminated, such as shoes, belts and watchbands, should be removed and disposed of properly.

Hand protection: Use gloves chemically resistant to this material. Examples of preferred glove barrier materials include: Neoprene, Nitrile/butadiene rubber ("nitrile" or "NBR") or Polyvinyl chloride ("PVC" or "vinyl").

Respiratory Protection: Not normally required. Respiratory protection should be worn when there is a potential to exceed the exposure limit requirements or guidelines. When handling in enclosed areas, when large quantities of mists are generated or prolonged exposure is possible in excess of the TLV, use a respirator with either an organic vapor-removing cartridge with a prefilter approved for pesticides (MSHA/NIOSH approval number prefix TC-23C) or a canister approved for pesticides (MSHA/NIOSH approval number prefix TC-14G).

Ingestion: Avoid ingestion of even very small amounts; do not consume or store food or tobacco in the work area; wash hands and face before smoking or eating.

Engineering Controls:

No special requirement when used as recommended.

Section 9: Physical and Chemical Properties

Physical State:	Liquid
Color:	Yellow
Odor:	No odor
Flash Point:	N/Av

Vapor Pressure (mmHg):	N/Av
Boiling Point:	>212°F
Vapor Density (air = 1):	N/Av
Bulk Density (H₂O = 1):	8.41 lbs./gal.
Freezing Point:	N/Av
Solubility in water (wt. %):	Completely soluble in water
pH:	4.5 – 5.0
Viscosity:	N/Av
Evaporation Rate	N/Av
Explosivity	Non-explosive

Section 10: Stability and Reactivity

Stability/Instability:	Thermally stable at typical use temperatures and in closed containers.
Conditions to Avoid:	Avoid heat of open flame. Avoid high temperatures above 130°F (54.4°C).
Incompatible Materials:	Reacts with galvanized steel or unlined mild steel to produce hydrogen, a highly flammable gas that could explode..
Hazardous Polymerization:	Will not occur
Thermal Decomposition:	Decomposition products can include and are not limited to: Carbon oxides, nitrogen oxides, and phosphorus oxides.

Section 11: Toxicological Information

Acute Toxicity

Ingestion:

- Oral LD50, (rat) : >5,000 mg/kg.

Dermal:

- Dermal LD50, (rabbit) : >5,000 mg/kg.

Inhalation:

- LC50, (4h), (rat) : >10 mg/l.

Eye Irritation (rabbit):

- Moderately irritating.

Skin Irritation (rabbit):

- Non-irritating.

Sensitization Skin (Guinea Pig):

- Non-sensitizer.

Chronic Toxicity and Carcinogenicity:

- This product does not contain any materials which are classified as carcinogenic by OSHA, ACGIH, or NTP. Glyphosate is listed as Category 2A by the International Agency for Research on Cancer (IARC) but, in the expert opinion of the Joint Glyphosate Task Force, this classification as a carcinogen is not warranted.

Teratogenicity, mutagenicity, and other reproductive effects: None known.

Section 12: Ecological Information

Data for the active ingredient Glyphosate:

ENVIRONMENTAL FATE:

Persistence and Degradability:

- Soil field half-life 2-174 days. Adsorbs strongly to soil.
- Water aerobic half-life < 7 days.

Aquatic Toxicity:

- Rainbow Trout: 96 hour LC50: 5.4 mg/L.
- Bluegill 96 hour LC50: 7.3 mg/L.
- Daphnia magna: 48 hour EC50: 11 mg/L.

Bird Toxicity:

- Mallard Duck 5-day dietary LC50: >5620 mg/kg.
- Bobwhite quail 5-day dietary LC50: >5620 mg/kg.

Anthropod Toxicity:

- Honey bee, oral/contact 48 hrs. LD50:100µg/bee.

Soil Organism Toxicity:

- Earthworm acute toxicity, 14 days, LC50: >1200 mg/kg soil.

Section 13: Disposal Considerations

If wastes and/or containers cannot be disposed of according to the product label directions, disposal of this material must be in accordance with your local or area regulatory authorities. This information presented below only applies to the material as supplied. The identification based on characteristic(s) or listing may not apply if the material has been used or otherwise contaminated. It is the responsibility of the waste generator to determine the toxicity and physical properties of the material generated to determine the proper waste identification and disposal methods in compliance with applicable regulations. If the material as supplied becomes a waste, follow all applicable regional, national and local laws.

Section 14: Transport Information

DOT: Non-Regulated.

ICAO/IATA: Not hazardous.

This information is not intended to convey all specific regulatory or operational requirements/information relating to this product. Additional transportation system information can be obtained through an authorized sales or customer service representative. It is the responsibility of the transporting organization to follow all applicable laws, regulations and rules relating to the transportation of the material

Section 15: Regulatory Information

OSHA: This product is hazardous according to the OSHA Hazard Communication Standard 29 CFR 1910.1200.

EPA:

- **EPA FIFRA INFORMATION**

This chemical is a pesticide product registered by the United States Environmental Protection Agency and is subject to certain labeling requirements under federal pesticide law. These requirements differ from the classification criteria and hazard information required for safety data sheets (SDS), and for workplace labels of non-pesticide chemical. The hazard information required on the pesticide label is listed in Section 8.. The pesticide label also includes other important information, including directions for use.

- **EPA/CERCLA Reportable Quantity:** NA.

SARA/TITLE III:

- **Sec 302: Extremely Hazardous Substance Notification:** This material is not known to contain any Extremely Hazardous Substances.
- **Sec. 311/312. Hazard Categories:** Immediate.

- **Section 313 Toxic Chemical(s):** None.
- **RCRA Waste Code:** No code.

California Proposition 65 (Safe Drinking Water and Toxic Enforcement Act of 1986):

- Glyphosate is listed on California Prop 65.

Toxic Substances Control Act (TSCA):

- All components of this product are on the TSCA Inventory or are exempt from TSCA Inventory requirements under 40 CFR 720.30.

Section 16: Other Information

LESCO urges each customer or recipient of this Safety Data Sheet (SDS) to study it carefully and consult appropriate expertise, as necessary or appropriate, to become aware of and understand the data contained in this SDS and any hazards associated with the product. The information herein is provided in good faith and is based on our current knowledge. However, no warranty, express or implied, is given. Regulatory requirements are subject to change and may differ between various locations and jurisdictions. It is the buyer's/user's responsibility to ensure that his or her activities comply with all federal, state, provincial and local laws. The information presented here pertains only to the product as shipped. It is the buyer's/user's duty to determine the conditions necessary for safe use of this product.

The SDS serves different purposes than, and DOES NOT REPLACE OR MODIFY, THE EPA APPROVED PRODUCT LABELING (attached to and accompanying the product container). Use, storage and disposal of pesticide products are regulated by the EPA under the authority of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) through the product labeling, and all necessary and appropriate precautionary, use, storage, and disposal information is set forth on that labeling.

It is a violation of federal law to use a pesticide product in any manner not prescribed on the EPA-approved label.
