

## Student Teaching Placement Demographics

### Classroom Data

Student teachers may have one or more placements during their 16 weeks of field experience. Student teachers are required to complete a demographic form giving the race and ethnicity of students in their classroom. The following is a synopsis of how diverse student teaching placements have been. This table uses average results from demographic forms since the fall 2013 semester.

Semester	Fall 13 (n=88)	Spring 14 (n=71)	Fall 14 (n=81)	Spring 15 (n=67)
% of NW Student Teachers with a classroom placement of 50% or more Non-White Students	20%	21%	28%	24%

### Building Level

The unit has compiled diversity data at the building level as well for student teacher placement. Some of this demographic data is listed below.

Student Teacher Building Demographics	Fall 2014	Spring 2015	Fall 2015
Building with 10% or more Black	9.89%	16.48%	12.50%
Building with 10% or more Hispanic	10.99%	17.58%	18.75%
Building with 75% or less White	14.29%	25.27%	20.00%
