

## Collaboration Email Thread

Odesa,

Our invitation for your early childhood education colleagues to visit our campus still stands. Or, is there a linkage we can create between your students and ours through technology? Please let me know if there is something we can do together.

Have a great weekend,

Dan

**Subject:** RE: Collaboration between Harris-Stowe State and Northwest Missouri State

Dan,

This sounds like an excellent idea. I will look forward to having a discussion on how we might schedule such a visit. I will be out of the office for most the remainder of the week. However, I am sharing this communication with colleagues who might be interested.

Thank you,

Odesa

Drs. Walls and Weatherford-Jacobs,

We have been discussing ways to create linkages between Northwest and Harris-Stowe. Perhaps as a place to begin, we would like to invite you and your early childhood education colleagues to visit our Horace Mann Laboratory School and the Early Childhood Leet Center for Children and Families.

Is that something you'd like to do?

Thank you,

Dan

Drs. Walls and Weatherford-Jacobs,

We would also welcome the opportunity to explore collaborations between Harris-Stowe and Northwest. I am copying this message to my colleagues and will encourage them to brain-storm ideas for connections and contact you directly with possibilities.

This could be a great relationship for both our schools.

Dan

Good Afternoon Dr. Gordon,

The College of Education at Harris-Stowe State University would welcome an opportunity to explore a collaborative effort with Northwest Missouri State University. We will also explore potential ideas to share.

Thank you,

Odesa

Drs. Walls and Weatherford-Jacobs,

It was nice meeting you again at the MACTE conference and discussing possible collaborations between Harris-Stowe and Northwest Missouri. I will forward your contact information to members of our faculty to explore potential ideas. Please let me know what thoughts you or your colleagues may also have.

Thank you and let's stay in touch,

Dan
