It is the policy of Northwest Missouri State University to maintain access for its community to local, national and international sources of information and to provide an atmosphere that encourages the free exchange of ideas and sharing of information. Access to this environment and the University's information technology resources should be considered a privilege and must conform with all laws, with Northwest policy, and with any policies specific to a resource.

Any change, update or clarification to the policy documents will be published in the Notices of the Day and in the following sections:
