# OUR BEARCATS SAY

"One thing I love about Northwest is the true family feel. There are a lot of places that throw that word around, but Northwest truly embodies it. The people that I came in here with I'm going to leave with as closer than family."

**Zaden Marroquin**

Accounting major from Olathe, Kan.

"I chose Northwest for its welcoming environment, low student-to-professor ratio, and one-on-one, hands-on learning opportunities. I owe my success to the faculty who taught me to get out of my comfort zone."

**Grace Carter**

Physical Education major from Kansas City, Mo.

A group of people, including students and faculty, are walking along a paved path in a park-like setting. The trees have vibrant autumn foliage in shades of orange, yellow, and red. The sun is shining brightly through the trees, creating a warm, golden light. In the background, other people are sitting on the grass, and a building is visible in the distance.
