

The curriculum leading to the Bachelor of Science in Clinical Laboratory Sciences degree emphasizes biology and chemistry. The program involves three years of study on campus and one year of study at an approved hospital or medical center. Acceptance into an affiliated hospital is decided entirely by the hospital and is based on 1) the quality of academic work completed by the student in the first three years, 2) letters of recommendation, and 3) in most cases, personal interviews. Upon successful completion of the clinical program, a Bachelor of Science in Clinical Laboratory Sciences degree is received.

The University is affiliated with several hospitals. There is one located in Iowa – Mercy Medical Center in Des Moines, and two located in the Kansas City, Missouri area – North Kansas City Hospital and St. Luke’s Hospital of Kansas City.
