Introduction

As an educational institution that strives to prepare students for successful careers, it is important to continuously evaluate the post-graduation status of Northwest Missouri State University's graduates. Career Services surveyed the previous academic year graduates and organized the data to provide Northwest stakeholders with a near accurate view of "first destination" employment and continuing education statistics. The data reported is six months after graduation (industry standard).

Methodology

Information Collected

Graduates are initially asked to verify general demographic information. All changes are noted in the Career Services' database software for future interactions with them as alumni clients and shared with the Alumni Office. In the second section of the survey, candidates share their post-graduation status (employed, continuing education, seeking employment or other). If the graduate indicates an employed status, he or she is asked to indicate the job title, name and address of employer and starting salary. Graduates continuing their education are asked to disclose the program of study and institution they plan to attend. The "other" category includes individuals actively choosing to neither seek employment nor continue their education. These graduates are frequently participating in post-graduation internships. The Career Services staff continually attempts to contact all graduates disclosing a "seeking" status to offer job search assistance. The final section of the survey is a collection point for the Alumni Office. The graduate self-reports each activity or organization he or she was involved in while attending Northwest.

Data Collection Method

The placement information contained herein was obtained through an extensive six-month process. The process was initiated at "cap & gown" pick-up with a hardcopy document and supplemented with an email to on-line only graduates and those not participating in the graduation ceremony. For those graduates not captured at commencement and for those who had previously indicated they were seeking employment, a follow-up email is sent at four months. An email is also sent to the faculty advisor in the event the new graduate has shared post-graduation data with him. If no response is received, a final effort is made to connect via two telephone attempts. At this time, any students not responding are considered "no responses" and are not calculated into the report.

Data Analysis

Undergraduate and Master degree data were analyzed separately. The data is further divided by college, department and major. Totals are calculated for each major, department and college for the entire academic year. In accordance with FERPA guidelines, graduate responses are reported without disclosing the individual's identity.

Business Management & Marketing	Get an Internship!
Business Management & Marketing	Do an internship experience
Business Management & Marketing	I would definitely tell them to make sure that they either get an internship during the course of their degree or immediately following graduation. If they do not obtain an internship, I would strongly recommend obtaining a Graduate Assistantship that specifically applies to the degree that they received and continue their education at least to the Master's level.
Business Management & Marketing	Work on interviewing skills
Business Management & Marketing	Tough market look for that one thing to diversify yourself. Get an internship
Business Management & Spanish	There are a lot of graduates--within and outside of Northwest--with the business/marketing mix. Differentiating yourself is a HUGE advantage. Add a second major or minor to make yourself different from everyone else.
Computer Science	Don't lose hope even with Bachelors
Finance: Financial Services &	Remember to keep applying yourself because it is you who determines your future.
Finance: Financial Management	
Horticulture	Do internships - biggest learning experience - connects so much to real work experience - Take advantage of Career Services
IDM: Computer Sci Programming	Always listen to your academic advisor!
IDM: Computer Sci Programming &	Head hunters/Recruiters do care if you find a good one
Computer Science	
IDM: New Media	Network
IDM: New Media	1. Don't give up 2. Look in places you wouldn't think
IDM: New Media & IDM: Computer	Start early!
Sci Programming	
International Business	Keep looking
International Business	Good luck! Need experience
International Business & Business	Look early
Management	
Journalism	Take advantage of internships
Journalism	Take advantage of all tools
Marketing	Recommend doing internships and Career Day. Research!!!
Marketing	Get an internship; part-time job
Marketing	Internships are very important in job searches.
Marketing	Even though my job isn't related it doesn't matter. All that matters is that I was college educated.
Marketing	Start small and don't get discouraged
Marketing & Advertising	Internships early, getting with students for portfolio experience
Office Information Systems &	Utilize career fairs for job information

Do an internship - Go outside
Internships!!
Keep looking and don't give up.
Get out of my field, good luck!
My best advice would be to use every website available to you to help you find a job! MOREAP.NET and each school districts websites were extremely helpful in my situation. Also, apply for everything!
Substitute teach! it's the best way to get your foot in the door.
Start applying early
Apply!!
Sub or work with students in some way
Call; start application before, you graduate
Apply everywhere not to be picky
Talk up Northwest reputation - be proud
Great school!
Make sure your college job is related to education
Good luck
Interview tips and resource help most helpful
Career Services helped me perfect my resume! This I feel helped me get my foot in the door to my career
Start early & go to Ed. Expo!
Have resume ready early.
Get involved while student teaching - that's what got me a job.

Take every class seriously because you'll need it in the real world.

Loved Education Expo
Start your internship application process as soon as you can. It is a long process but it is worth it in the end. I had low expectations about getting in, as I heard there was an overall low acceptance rate into dietetic internships, but my hard work paid off and I got into my first choice internship.
Think broadly-major incorporates a lot of areas
Good luck
Career Services is very helpful, continue networking and career fairs are gold mines.
It is harder than it seems to get a job within our respective degree areas right following graduation. Due to the low volume of interior designers that are taking new hires, I am personally going back to my summer job until something arises. It is better to make some money than no money this summer.
Good luck! It was difficult.

Graduate Student Comments

College of Education and Human Services

Major(s)

Response to: "We welcome your comments or suggestions for new graduates seeking a job with your major in your field."

Applied Health Sciences

I am working basically with my undergraduate major. My MS degree has given me a boost to apply for postgraduate studies which is part of my future plans.

Ed Specialist: Superintendent

Took outreach classes at Kirksville facility - now it's closing but was very beneficial.

Ed Specialist: Superintendent

Lots of positions open - lots of change

Educational Leadership: Elem

Start Early

Educational Leadership: Elem

Great program!

Educational Leadership: Elem

Know what you're doing going out! Know your purpose

Educational Leadership: Sec

Northwest is great school, helped to get the job

Guidance and Counseling

Ask a lot of questions of school districts.

Guidance and Counseling

Make sure to go to Career Services and get your resume critiqued!

Guidance and Counseling

I love my job. Program marketed as full-time employed & going to school would be easier.

Health and Physical Education

Go on any interview you can

Reading

Getting an emphasis in reading instead of curriculum and instruction was a better choice

Special Education

Keep trying, don't give up - don't be afraid to move around

Special Education

If going into Special Education, get ready for the paperwork

Teaching: Early Childhood

Plan for the unexpected

Teaching: Early Childhood

Great program

Teaching: Early Childhood

I have no suggestions since I was already employed when I entered into this degree program. Thank you.

Teaching: Middle School

Just keep searching. Take help from Career Services to achieve your goal.
