Introduction

As an educational institution that strives to prepare students for successful careers, it is important to continuously evaluate the post-graduation status of Northwest Missouri State University's graduates. Career Services surveyed the previous academic year (summer, fall, spring) graduates and organized the data to provide Northwest stakeholders with a near accurate view of "first destination" employment and continuing education statistics. The data reported is six months after graduation (industry standard).

Methodology

Information Collected

Graduates are initially asked to verify general demographic information. All changes are forwarded to and processed by the Registrar for future interactions with them as alumni clients. In the second section of the survey, candidates share their post-graduation status (employed, continuing education, seeking employment or other). If the graduate indicates an employed status, he or she is asked to indicate the job title, name, address of employer and starting salary. Graduates continuing their education are asked to disclose the program of study and institution they plan to attend. The "other" category includes individuals actively choosing to neither seek employment nor continue their education. Internship participation is also collected gathering name of employer, location and experience satisfaction. Career Services continually attempts to contact all graduates disclosing a "seeking" status to offer job search assistance.

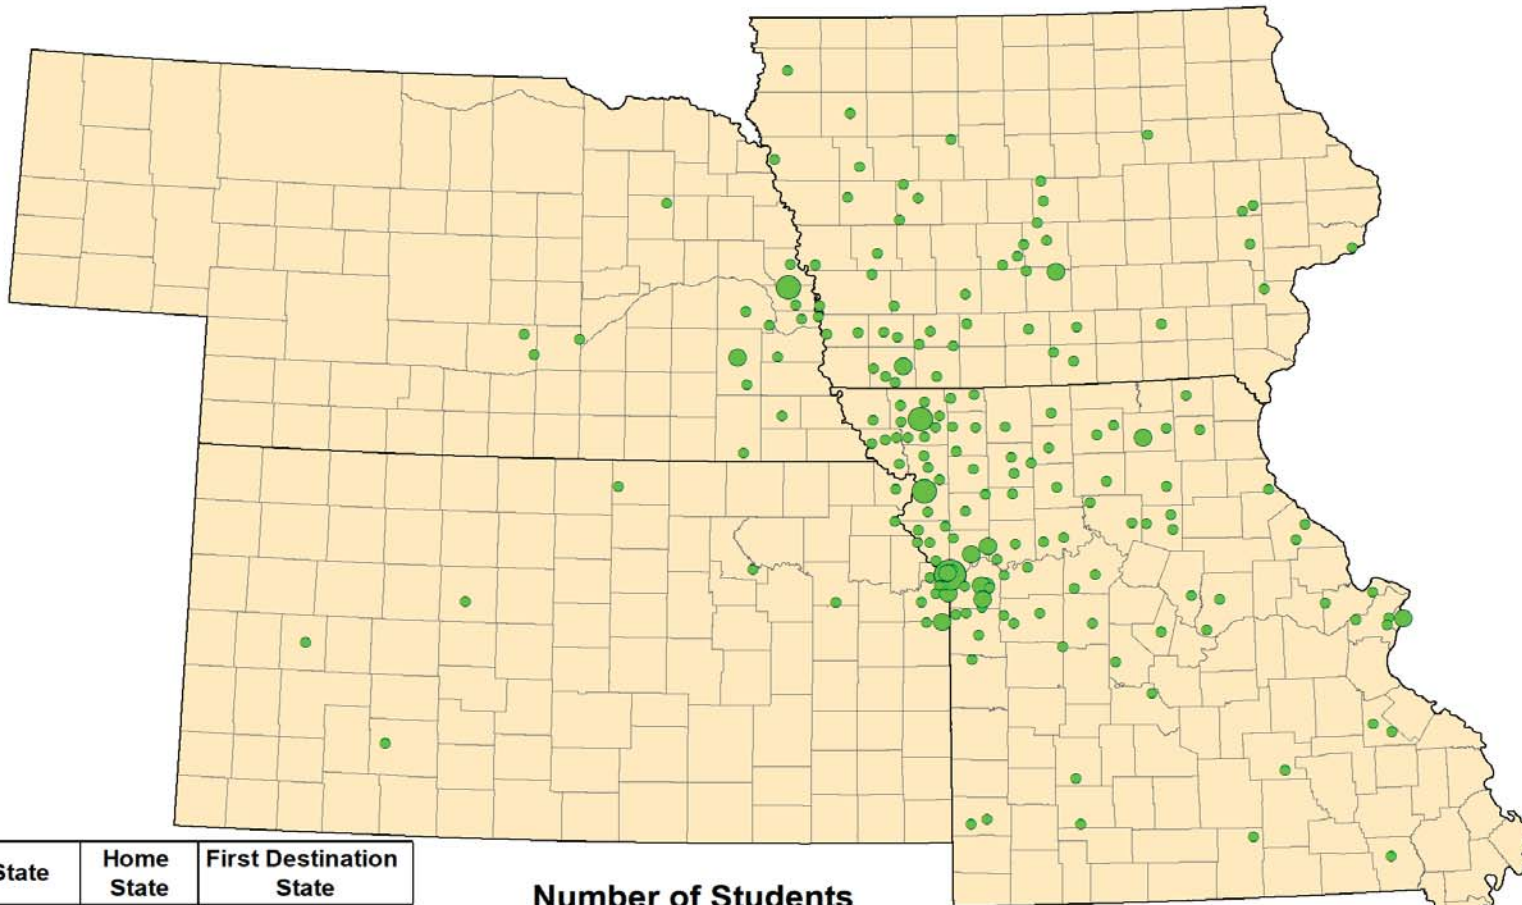

Data Collection Method

The placement information contained herein was obtained through an extensive six-month process. The process was initiated prior to "cap & gown" pick-up with an email asking graduates to complete an online survey. A hardcopy document is available at "cap & gown" and supplemented with another email to online only graduates and those not participating in the graduation ceremony. For those graduates not captured at commencement and for those who had previously indicated they were seeking employment, a follow-up email is sent at four months. If no response is received by six-months post-graduation, an effort is made to connect via two telephone attempts. Career Services conducts social media research prior to sending an email to faculty members in the event the new graduate has shared post-graduation data with him/her. Nonparticipants in all aforementioned steps are considered "no responses" and are not calculated into the report.

Data Analysis

Undergraduate and Master degree data were analyzed separately. The data is further divided by college/school, department and major. Totals are calculated for each major, department and college for the entire academic year. In accordance with FERPA guidelines, graduate responses are reported without disclosing the individual's identity.

**First Destinations of 2015-2016
Northwest Missouri State University Graduates**

State	Home State	First Destination State
Missouri	57%	49.3%
Iowa	10.80%	8.8%
Kansas	4.70%	6.8%
Nebraska	7.30%	6.5%
Other	20.20%	28.6%

How related is your job to your academic preparation?

College of Arts and Sciences

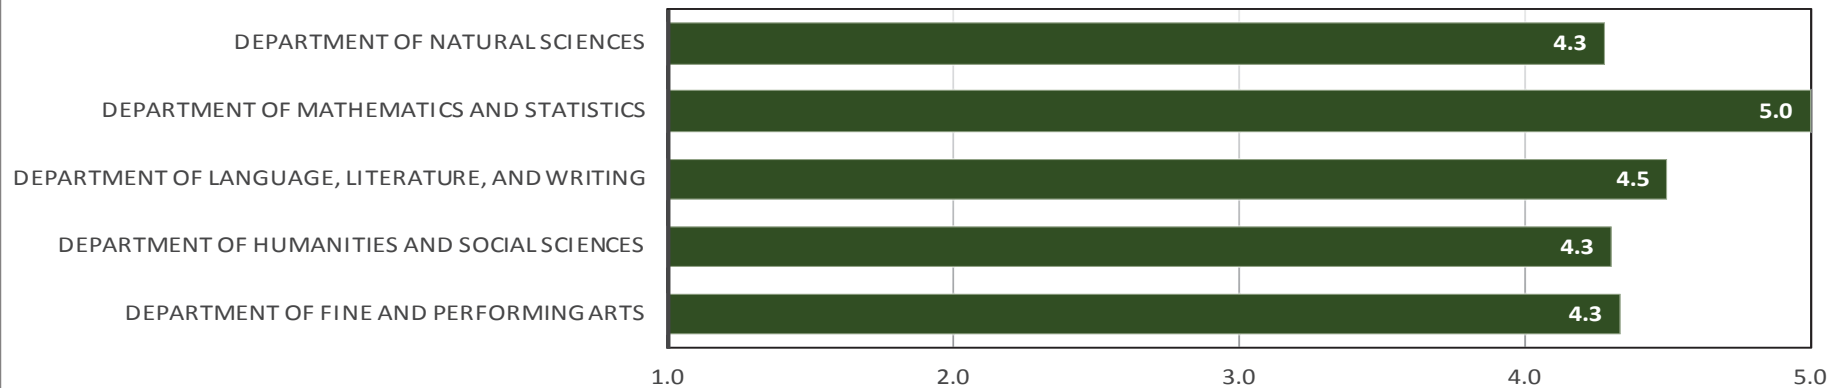

Professional Schools

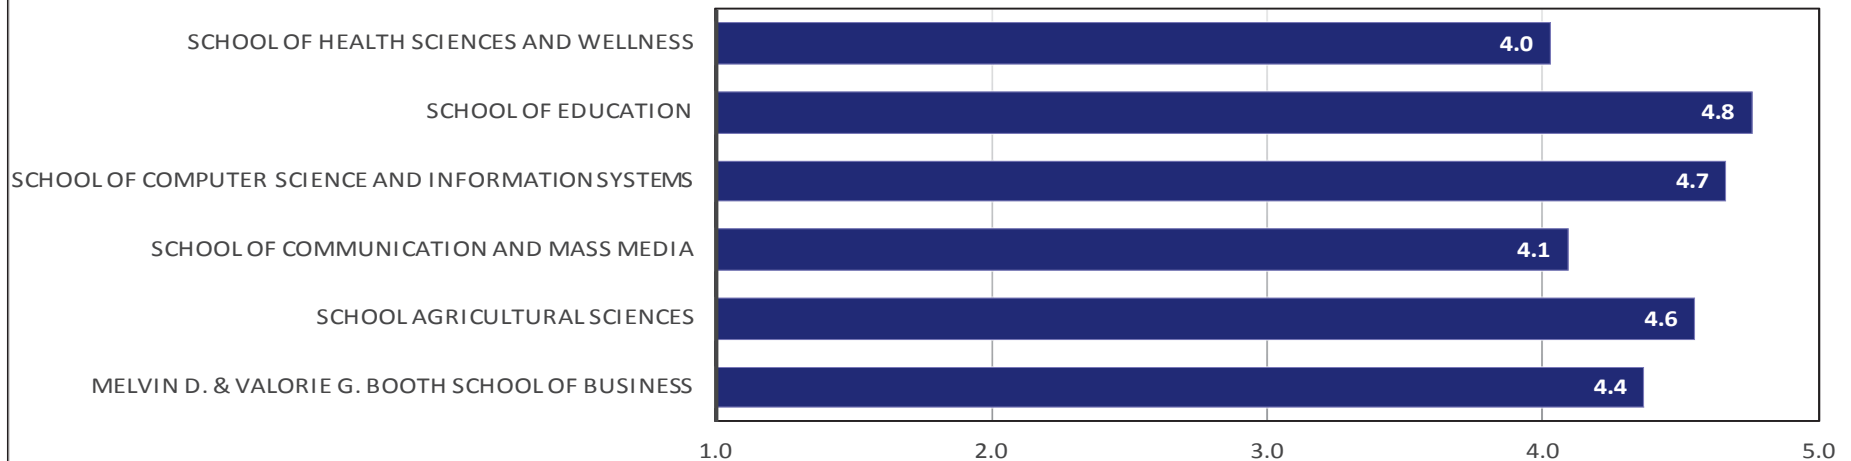

How satisfied are you with your current job?

College of Arts and Sciences

Professional Schools

College of Arts and Sciences

Fine and Performing Arts

Major	Response to: "We welcome your comments and suggestions for current students and new graduates with your major, seeking a job in your field".
Art	There isn't much out there in this degree. Maybe get education degree as well.
Instru Music Educ/Non Piano	Get experience outside of school.
Music	Never stop pursuing your dream.
Music	Don't be afraid to try new things.
Theatre: Performance	Take all opportunities that are presented.

Humanities and Social Sciences

Major	Response to: "We welcome your comments and suggestions for current students and new graduates with your major, seeking a job in your field".
Comprehensive Crisis Response	Diversify yourself and study additional things.
Emergency & Disaster Mgmt	Broad skill set with EM-get involved early with your passion.
Emergency & Disaster Mgmt	Find an internship.
Geography	Have a passion for GIS & take a programming class. Interviewers are asking for Python experience.
GIS: Geographic Emphasis	Have a passion for GIS & take a programming class. Interviewers are asking for Python experience.
GIS: Geographic Emphasis	Work hard, stay focused and keep your goals in mind.
History	Networking is key.
History	Think outside the box. Use the critical thinking & problem solving skills this program gave you!
History	Get a Masters.
History	It took me seven months of searching for a position with any company which would take me. When they say networking is important, they mean it. It isn't what you know, its who you know and I would not have my position if it had not been for networking. My advice for college graduates in my major is to explore all options and learn as much as you can when in school. As long as you have a degree, most places are going to take you and do not worry about your GPA as much as school says to. My current job did not even ask or look at what my GPA was. Good luck to all future graduates. I hope you find what you're looking for.
History	The professors in the Humanities department are amazingly helpful and incredibly intelligent. Take time to visit with them and get to know them outside the classroom.
Political Science	Never hurts to research jobs early.
Social Science	It's a challenge to go to all classes and raise your GPA.
Social Science	Keep a record of everything you are involved in.

Language, Literature and Writing

Major	Response to: "We welcome your comments and suggestions for current students and new graduates with your major, seeking a job in your field".
English	Good luck!
English	Cover letters do matter.
English Education	Don't be afraid to try new things.
Spanish	Think outside the box. Use the critical thinking & problem solving skills this program gave you!
Spanish	Look into careers in your major ahead of time and use the resources and help that Career Services provides. The most important thing coming out of college seems to be to establish yourself by getting a job and that can be hard to do when nobody knows who you are.

College of Arts and Sciences

Mathematics and Statistics

Major	Response to: "We welcome your comments and suggestions for current students and new graduates with your major, seeking a job in your field".
Mathematics	If you graduate early, have a plan/job lined up.

Natural Sciences

Major	Response to: "We welcome your comments and suggestions for current students and new graduates with your major, seeking a job in your field".
Biology: Ecology Emphasis	Participate in internships.
Biology: Environ Sci Emphasis	Internships are important. Make sure you have some.
Biology: General Biology	Take advantage of Career Services
Biology/Psychology	Keep up the hard work! It'll all work out in the end. I'm graduating a semester early, I have a full-time job lined up, and I've been asked to interview at every Physical Therapy school I've applied at. I've been accepted at both of the schools I've interviewed at. I just need to choose. Northwest does prepare you, as long as you work hard.
Chemistry (ACS Accredited)	Classes are hard. Research is hard. Never forget why you love chemistry.
Chemistry: General Chem Emph	It's common to be 'on the fence' about graduate school for chemistry majors. Even with undergraduate research experience, it's hard to be sure whether you want to continue education or go into industry. This is why it's so important to seriously and intentionally apply for science internships--often referred to as Research Experience for Undergraduates--in your sophomore and junior years. After these experiences, you will know if you want to go to graduate school and this is the type of certainty that is needed to apply for graduate school. The nature of the graduate school application process requires a proactive attitude because of the required references, GRE test scores, and personal statements are due the mid December in your senior year.
Chemistry: Medicinal Chem Emph	Internships help!
Chemistry: Medicinal Chem Emph	Make sure you get research/shadowing experience. Also take analytical chemistry before senior year.
Geology: Environmental	Remember that life is fluid and to always say yes. Even if you don't think it's quite the place you'd like to be, the adventure is half the fun in finding that out. I'm chasing a healthcare lobbyist job in Colorado that will pay 6 figures. It isn't in my degree field but pays well and I can branch out in my degree field once I'm established. You need to be thinking ten steps ahead, not in the moment.
Geology: General	Get an internship as soon as possible. If not, getting a job in geology is extremely difficult right now. You also have a big change of needing to move to where jobs are because Missouri doesn't have a whole lot of opportunity. Prepare to apply to many, many jobs without success, but keep trying and stay positive; above all, keep networking.
Geology: General	Study for the GRE earlier than you would think.
Marine Biology	Do internships.
Marine Biology	Had a great run, gained experience.
Nanoscience: Nanoscale Physics	It's common to be 'on the fence' about graduate school for chemistry majors. Even with undergraduate research experience, it's hard to be sure whether you want to continue education or go into industry. This is why it's so important to seriously and intentionally apply for science internships--often referred to as Research Experience for Undergraduates--in your sophomore and junior years. After these experiences, you will know if you want to go to graduate school and this is the type of certainty that is needed to apply for graduate school. The nature of the graduate school application process requires a proactive attitude because of the required references, GRE test scores, and personal statements are due the mid December in your senior year.
Wildlife Ecol & Conservation	Don't give up applying.
Wildlife Ecol & Conservation	Get as much experience as you can early on.

Professional Schools

School of Agricultural Sciences

Major	Response to: "We welcome your comments and suggestions for current students and new graduates with your major, seeking a job in your field".
Agricultural Business	Go for internships.
Agricultural Business	Ag program helped me get my career.
Agricultural Business	Be as involved as possible, be willing to take any job throughout college.
Agricultural Business	Marketing is important in the Ag industry.
Agricultural Business	Be involved in the classroom the first day in class. Networking with their professors and most importantly their peers will help them succeed in college and in their careers.
Agricultural Business	Internships. At career fair, recruit with Growmark.
Agricultural Business	Take any internship opportunity as soon as you can.
Agricultural Business	Take chances! Don't be afraid to go out there and try constantly to get what you deserve. The teachers in our program honestly have faith in all of us to do well, we just have to want to try and do well ourselves.
Agricultural Education	Be as involved as possible, be willing to take any job throughout college.
Agricultural Education	Don't be afraid to give out your resume. Go out of your comfort zone.
Agricultural Science	Go to class.
Agricultural Science	I only did one internship and looking back I wish I would have done more. Internships provide great work experience and can lead into full time jobs.
Agricultural Science	Keep an open mind.
Agricultural Science	Make sure you have a game plan on planning classes in advance and "what-ifs". It makes advisement time go much more smoothly.
Agricultural Science	Start the ball rolling early.
Animal Science	Go for internships.
Animal Science	Highly encourage you to do an internship for a company you want to work for.
Animal Science	If you don't want to be a livestock farmer, good luck with finding a job that supports your life.
Animal Science	Make connections with people and stay in contact. Don't burn bridges.
BT - Agriculture	I would like to see a larger focus on helping students find a job related to their field of study before graduating.
BT - Agriculture	Go to Iowa State Career Day. Mock-interview day was a waste of time.

Melvin D. & Valorie G. Booth School of Business

Major	Response to: "We welcome your comments and suggestions for current students and new graduates with your major, seeking a job in your field".
Accounting	Start early in the internship/job search because large accounting firms hire earlier than the Career Services Career Day and on-campus interviews.
Business Management	Get as many internships as you can and get involved.
Business Management	Go to Career Day, it gives you great experience.
Business Management	Once a Bearcat, Always a Bearcat.
Business Management	Pick a focus or minor.
Business Management	My results are not typical and should not be used as a basis for comparison to other graduates as I have already been in my career for a number of years before pursuing completion of my bachelor's degree.
Business Management	Use on-campus services.
Business Management	Be open to new things and opportunities.
Business Management	Definitely do an internship and talk with professors! They are willing to help you. :)
Business Management	I am so incredibly thankful to have been a Bearcat, and owe all of my success to my teachers and fellow students. I am extremely lucky to have spent the four years playing volleyball and growing academically everyday in the classroom. OABAAB!

Professional Schools (continued)

Melvin D. & Valorie G. Booth School of Business (continued)

Major	Response to: "We welcome your comments and suggestions for current students and new graduates with your major, seeking a job in your field".
Business Management	Participate in Career Day. It was a big help with networking and making connections.
Business Management	Do your own research on employers and programs, do not rely on Career Fair.
Business Management	Recommend double majors. It makes you more marketable. Being involved in organizations help you become more connected with employers.
Business Management	Take advantage of Career Services, it will open doors.
Business Management	Worthwhile to finish this degree late in life; if going back to school keep working.
Finance: Financial Services	Get an internship.
International Business	Obtained a GA position for free tuition - GO BEARCATS!!!
International Business	Even though I have a double major, when it comes to employment it is still very broad. As a Consult Analyst at Cerner I will be traveling 80-100% of the time. Being bilingual and having studied abroad in Spain have really given me a boost as I start my career. Finding employment was very stressful because it is all about who you know. My advisor, Career Day, my Residential Life position, and my study abroad experience have all in some way aided me in my job search. I was able to take advantage of the opportunities here at Northwest and I am so happy I did.
Marketing	Internships are important.
Marketing	Use all services provided to you. Get out of majors you don't enjoy.
Marketing	Get in touch with grads/friends/family for jobs- networking.
Marketing	Keep an open mind, dig deeper...it will pay off.
Marketing	Be open to new things and opportunities.
Marketing	Definitely do an internship and talk with professors! They are willing to help you. :)
Marketing	Do your own research on employers and programs, do not rely on Career Fair.
Marketing	Even though I have a double major, when it comes to employment it is still very broad. As a Consult Analyst at Cerner I will be traveling 80-100% of the time. Being bilingual and having studied abroad in Spain have really given me a boost as I start my career. Finding employment was very stressful because it is all about who you know. My advisor, Career Day, my Residential Life position, and my study abroad experience have all in some way aided me in my job search. I was able to take advantage of the opportunities here at Northwest and I am so happy I did.
Marketing	I am so incredibly thankful to have been a Bearcat, and owe all of my success to my teachers and fellow students. I am extremely lucky to have spent the four years playing volleyball and growing academically everyday in the classroom. OABAAB!
Marketing	Recommend double major-makes you more marketable. being involved in organizations help you become more connected with employer.
Marketing	Take advantage of Career Services, it will open doors.

School of Communication and Mass Media

Major	Response to: "We welcome your comments and suggestions for current students and new graduates with your major, seeking a job in your field".
Communication: Organizational	Experience is important. Internships and other experiences are very helpful.
Communication: Organizational	Do an internship.
Communication: Organizational	Get to Career Services, and take advantage of all the help this campus has to offer!
Communication:Public Relations	Do an internship.
Communication:Public Relations	It was extremely difficult to find a position in my field. Almost near impossible. I wish my professors had prepared me for 100+ job applications that didnt lead anywhere for a job that will barely cover my student loans. Northwest needs to have better financial assistance for students who are paying for all expenses when going to Northwest.
Communication:Public Relations	Pick what you love doing over a paycheck, you'll thank yourself if you do.
Communication:Public Relations	Please get more PR and/or Marketing Firms at Career Day.
IDM: New Media	Take as many internships as possible. Start early.
Journalism	Definitely spend more time working with newspapers over summer to get experience. Get as much writing experiences as possible.
Mass Media: Brdcast Production	Build your profile.
Mass Media: Brdcast Production	Take internships.
Mass Media: Brdcast Production	Be ethical.
Mass Media: Brdcast Production	Do an internship, great networking.
Mass Media: Multimedia Journal	Be really open to how media has many different opportunities.
Mass Media: Multimedia Journal	Participate in as many practicums as possible!
Mass Media: Sports Media	Try everything- you might not want what you think. Be open to classes outside your major.
Mass Media: Sports Media	Get an internship! NW ACP Summer Program rocks!
Public Relations	Keep trucking.
Public Relations	Post-grad depression is a real thing, stay open-minded and get experience.

School of Computer Science and Information Systems

Major	Response to: "We welcome your comments and suggestions for current students and new graduates with your major, seeking a job in your field".
Business Technology	Stick with it, it's very fulfilling.
Computer Science	Be sure to get those internships!
Computer Science	Get an internship early, including trying your freshman year. It CAN be done. Never give up. Always work hard and do your work the best you can.
IDM: Computer Sci Programming	Take as many internships as possible. Start early.
Management Information Systems	Follow your dreams

School of Education

Major	Response to: "We welcome your comments and suggestions for current students and new graduates with your major, seeking a job in your field".
Elementary Education	Go to Career Sevices events to broaden your horizons.
Elementary Education	Practice mock interviews and filling out applications.
Elementary Education	Work hard and have fun.
Elementary Education	Both mock interview and Education Expo were beneficial in my job search.
Elementary Education	Do not be afraid to step out of the box-KC and Omaha.
Elementary Education	Education department is extraordinary. Well prepared.
Elementary Education	Give it a chance.
Elementary Education	Go to Education Expo.
Elementary Education	Have more southwest Iowa schools at Education Expo.
Elementary Education	Mock interview day is very helpful in reaching out to employers before graduation.
Elementary Education	The most benefical class is Senior Seminar. Utilize career services resources.
Elementary Education	Work hard and play much harder.
Middle School	Loved this program because it allowed cross content areas and had flexibility.
Special Educ:Cross Categorical	Work hard and have fun.
Special Educ:Cross Categorical	Both mock interview and Education Expo were beneficial in my job search.
Special Educ:Cross Categorical	Work hard and play much harder.

School of Health Sciences and Wellness

Major	Response to: "We welcome your comments and suggestions for current students and new graduates with your major, seeking a job in your field".
Industrial Psychology	Look into careers in your major ahead of time and use the resources and help that Career Services provides. The most important thing coming out of college seems to be to establish yourself by getting a job and that can be hard to do when nobody knows who you are.
Psychology	Make good friends.
Psychology	Try new things!
Psychology	Networking is key.
Psychology	Northwest was the best place for me to further my education! The small town atmosphere matched with excellent faculty members makes a student feel at home.
Psychology	Psychology is so broad - keep an open mind.
Psychology	Search through all of your options.
Psychology	Go to Career Day and get an internship, it helps.
Psychology/Sociology	Always utilize extra credit opportunities.
Psychology/Sociology	Explore all of your options
Psychology/Sociology	Interning is important, it lets you figure out what you really want to do.
Recreation: Corp Rec/Wellness	Take advantage of all oppportunities, network.
Recreation: Corp Rec/Wellness	Get an internship in the major that you want, although it may not be easy.
Recreation: Rec & Park Mgt	Get a part-time job in a related field.
Recreation: Therapeutic Rec	Do completely different fields.
Recreation: Therapeutic Rec	Don't give up on the job search!

College of Arts and Sciences

Department of Humanities & Social Sciences

Major(s)	Response to: "We welcome your comments or suggestions for new graduates seeking a job with your major in your field."
Geographic Info Science Cert	All the subjects were very informative and I gained a lot of knowledge.

Department of Language, Literature and Writing

Major(s)	Response to: "We welcome your comments or suggestions for new graduates seeking a job with your major in your field."
English: Pedagogy Emphasis	Amazing program, great fit for professional work.
English: Pedagogy Emphasis	Always have hope.
Reading	Surprised and not ready for portfolio- professors didn't emphasize enough.

Professional Schools

Melvin D. & Valorie G. Booth School of Business

Major(s)	Response to: "We welcome your comments or suggestions for new graduates seeking a job with your major in your field."
MBA	Great infrastructure of the school. Provide full Graduate Assistantship for graduate students.
MBA	I recommend this program.
MBA	In the department of MS-ACS, please try to accommodate elective courses as per student interest.
MBA	It is nice course work.
MBA	It was fun being with other graduates.
MBA	It's been great to study my Master's at Northwest. Once A Bearcat Always A Bearcat!
MBA	Keep working hard, you'll find what you're looking for.
MBA	NW has a great GIS program with great professors. Helped me get a great job.
MBA	Online opened doors.
MBA	Practical knowledge
MBA	Study hard. Do your best!
MBA	The course work is pretty good.
MBA	I was employed before Masters, I havent been able to find other employment.
MBA	Get help looking for internships, especially in your Masters.
MBA	Worthwhile program! I gained knowledge and skills applicable every day in my current role.
MBA - IT Mgmt Emphasis	Great online experience. The distance learning interface is very good. The faculty and instructors are very responsive. The professors give clear, focused instruction. The feedback from assignments is relevant and shows that the professors give close attention to the individual student learning progress.
MBA - IT Mgmt Emphasis	Try to take a course with Dr. James Walker. Tough course, but worth it.

School of Computer Science and Information Systems

Major(s)	Response to: "We welcome your comments or suggestions for new graduates seeking a job with your major in your field."
Applied Computer Science	All the best!
Applied Computer Science	Awesome experience with hands on. Lots of technology. Learning is fun!
Applied Computer Science	Career fair should be improved with more interviews instead of discussions.
Applied Computer Science	Everyone is good
Applied Computer Science	Feels great to be a bearcat.
Applied Computer Science	Good luck for future.
Applied Computer Science	I am great to work with. I have been educated by faculty in Northwest school.
Applied Computer Science	It is a good experience!!
Applied Computer Science	It was a nice experience to be a student at Northwest. "Once a bearcat, always a bearcat!"
Applied Computer Science	It was an amazing journey here at Northwest to interact with diverse students.

Professional Schools

School of Computer Science and Information Systems

Major(s)	Response to: "We welcome your comments or suggestions for new graduates seeking a job with your major in your field."
Applied Computer Science	Work Hard
Applied Computer Science	Confidence

School of Education

Major(s)	Response to: "We welcome your comments or suggestions for new graduates seeking a job with your major in your field."
Ed Leadership: K-12	You get what you put into it.
Elementary Mathematics	Well worth it, I am a much better teacher than I would have been without the guidance.
Reading	I would recommend everyone who is beginning the job search to visit Career Services to help with resume and cover letter building! They will look over your resume and cover letter, then give positive suggestions!

School of Health Science & Wellness

Major(s)	Response to: "We welcome your comments or suggestions for new graduates seeking a job with your major in your field."
Applied Health/Sport Sciences	Network
Guidance and Counseling	Start networking and making connections! Go to career day. Think outside the box.
