A group is working on dispositions. There is also a committee studying the secondary practicum experience with dispositions being considered as part of this. It needs to be determined how this information is being handled. There is a need for a standing committee that can be notified when there is an issue and a red flag form is submitted. The form will be submitted through Tk20 to monitor these and forwarded to the committee. There was discussion about this process. It was agreed that the red flag form should be forwarded to the Assistant Director of Teacher Education and the student's advisor. They will act as the filter to review. Dr. Malm and Dr. Pival will collaborate to set up the guidelines for this committee.

Director of Teacher Education Report

Dr. Pival reported that there are data issues, and we are working with DESE to resolve this. Mike McBride and she are meeting with program directors about this. Dr. Malm explained that DESE is setting up meetings to develop the new tests that are replacing C-BASE and Praxis. The content tests are to be designed to address specific Missouri competencies.

The meeting was adjourned.
