CBHE Program Review Process: We have completed our program review and typically the review is for programs for low enrollment. CBHE will monitor these programs for growth. They will want to know what we are doing to stimulate growth in enrollment in these programs, especially the STEM areas.

Maryville Middle School & Northwest Partnership: The minutes from the partnership meeting on May 10 were shared. The goal of this partnership is to collaborate and maintain a good working relationship.

Director of Teacher Education Report

Dr. Piveral reported that we had attended the NCATE convention and training on the next accreditation cycle. We need to partner with our area schools in an intentional way. We have purchased the Tk20 assessment system and are implementing it. This is a robust system. Mike McBride will be leading us through this process and analyzing the data. There needs to be a year's worth of data in the system for our report. Dr. Malm explained that the timeline on the report has changed since we need to submit a preliminary report six months prior to the campus review.

The meeting was adjourned.

Joyce Piveral, Executive Secretary
