Choosing a minor and/or electives should be completed through careful discussion of student career goals. For instance, a student interested in families could consider a child and family studies minor. Someone oriented toward health/wellness/substance abuse issues might benefit from a health education or recreation minor. The Communication Department has many electives which would be good choices for a therapist too.

Recommended electives include: 08-333 Developmental Psychology, 08-335 Case Management, 08-353 Psychology of Gender, 68-520 Drug Prevention and Education,
