

POINTS OF PRIDE

This major offers student the experience of language, life and culture through the lens of the Spanish language. Students gain specialty knowledge in film studies, language education and teaching, pluralism and multiculturalism, international relations and politics and language policy.

STUDY ABROAD

Study Abroad in Spain or Latin America offers students the opportunity to experience Hispanic cultures firsthand. Students may customize their own program of study by selecting between year-long, semester or faculty-led trips to the country of their choice. This includes homestays with native-speaking families, courses taught by local professors and various excursions throughout the country.
