Section 1: Identification of the Substance/Mixture and of the Company/Undertaking

1.1 Product identifier

Product Name
- Selenium (<1mm diameter)

Synonyms
- Sélénium (<1 mm de diamètre)

CAS Number
- 7782-49-2

Product Code
- 1590

EC Number
- 231-957-4

EU Index Number
- 034-001-00-2

Molecular Formula
- Se

Molecular Weight
- 78.96

1.2 Relevant identified uses of the substance or mixture and uses advised against

Relevant identified use(s)
- Industrial uses: Use of substance as such in preparations at industrial sites; Manufacture of basic metals, including alloys; Service life (professional worker): use of metal containing articles. Article service life: Industrial use by workers with abrasive techniques. Industrial use as additive in glass manufacture; Industrial use in the vulcanization of rubber. Industrial use in thin film production by physical vapor deposition. Industrial use of coatings; Used as intermediate in the manufacture of metal compounds

Use(s) advised against
- No specific uses advised against are identified

1.3 Details of the supplier of the safety data sheet

Manufacturer
- 5N Plus Inc
  4385 Garand Street
  St Laurent, Quebec H4R 2B4
  Canada
  www.5nplus.com
  MSDS@5nplus.com

Telephone (General)
- (514) 856-0644 ext 2395

1.4 Emergency telephone number

- For Chemical Emergency Spill, Leak, Fire, Exposure, or Accident Call CHEMTREC Day or Night Within USA and Canada: 1-800-424-9300 CCN14093 Outside USA and Canada: +1 703-527-3887 (collect calls accepted)

Section 2: Hazards Identification
EU/EEC
According to EU Directive 67/548/EEC (DSD) or 1999/45/EC (DPD)

2.1 Classification of the substance or mixture

CLP
- Acute Toxicity Inhalation 3 - H331
- Acute Toxicity Oral 3 - H301
- Hazardous to the aquatic environment Chronic 4 - H413
- Specific Target Organ Toxicity Repeated Exposure 2 - H373

DSD/DPD
- Toxic (T)
  - R33, R53, R23/25

2.2 Label Elements

CLP

DANGER

Hazard statements
- H373 - May cause damage to organs through prolonged or repeated exposure.
- H413 - May cause long lasting harmful effects to aquatic life
- H301+H331 - Toxic if swallowed or if inhaled

Precautionary statements

Prevention
- P273 - Avoid release to the environment.
- P260 - Do not breathe dust, fume, gas, mist, vapours and/or spray.
- P270 - Do not eat, drink or smoke when using this product.
- P271 - Use only outdoors or in a well-ventilated area.
- P264 - Wash thoroughly after handling.

Response
- P314 - Get medical advice/attention if you feel unwell.
- P304+P340 - IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.
- P301+P310 - IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician.

Storage/Disposal
- P501 - Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.
- P403+P233 - Store in a well-ventilated place. Keep container tightly closed.
- P405 - Store locked up.

DSD/DPD

Risk phrases
- R33 - Danger of cumulative effects.
- R53 - May cause long-term adverse effects in the aquatic environment.
- R23/25 - Toxic by inhalation and if swallowed.

Safety phrases
- S45 - In case of accident or if you feel unwell, seek medical advice immediately (show the label where possible).
- S37 - Wear suitable gloves.

2.3 Other Hazards

CLP
- The PBT and vPvB criteria of Annex XIII to the regulation (EC) 1907/2006 does not apply to inorganic substances.

DSD/DPD
- None
2.1 Classification of the substance or mixture

OSHA HCS 2012

- Acute Toxicity Inhalation 3 - H331
- Acute Toxicity Oral 3 - H301
- Specific Target Organ Toxicity Repeated Exposure 2 - H373

2.2 Label elements

OSHA HCS 2012

DANGER

Hazard statements
- May cause damage to organs through prolonged or repeated exposure. - H373
- May cause long lasting harmful effects to aquatic life - H413
- Toxic if inhaled - H331
- Toxic if swallowed - H301

Precautionary statements

Prevention
- Avoid release to the environment. - P273
- Do not breathe dust, fume, gas, mist, vapours and/or spray. - P260
- Do not eat, drink or smoke when using this product. - P270
- Use only outdoors or in a well-ventilated area. - P271
- Wash thoroughly after handling. - P264

Response
- IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. - P304+P340
- IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician. - P301+P310

Storage/Disposal
- Dispose of content and/or container in accordance with local, regional, national, and/or international regulations. - P501
- Store in a well-ventilated place. Keep container tightly closed. - P403+P233
- Store locked up. - P405

2.3 Other hazards

OSHA HCS 2012

- None

Canada

According to WHMIS

2.1 Classification of the substance or mixture

WHMIS

- Not classified

2.2 Label elements

WHMIS

- No label element(s) required.

2.3 Other hazards

WHMIS

- In Canada, the product mentioned above is not considered hazardous under the Workplace Hazardous Materials Information System (WHMIS).

### 3.2 Mixtures

- Material does not meet the criteria of a mixture.

### Section 4 - First Aid Measures

#### 4.1 Description of first aid measures

**Inhalation**
- IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.

**Skin**
- IF ON SKIN: Wash with plenty of soap and water. If skin irritation occurs: Get medical advice/attention. Wash contaminated clothing before reuse.

**Eye**
- IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

**Ingestion**
- Do not induce vomiting. If vomiting occurs, the head should be kept low so that stomach vomit doesn’t enter the lungs. Call a physician or poison control center immediately.

#### 4.2 Most important symptoms and effects, both acute and delayed

- Refer to Section 11 - Toxicological Information.

#### 4.3 Indication of any immediate medical attention and special treatment needed

**Notes to Physician**
- No recommendation given, but first aid may still be required in case of accidental exposure, inhalation or ingestion of this chemical. If in doubt, GET MEDICAL ATTENTION PROMPTLY!

#### 4.4 Other information

- CAUTION ! First aid personnel must be aware of own risk during rescue !

### Section 5 - Firefighting Measures

#### 5.1 Extinguishing media

**Suitable Extinguishing Media**
- Sand.
- Metal fire Powders.

**Unsuitable Extinguishing Media**
- DO NOT use water if avoidable.

**Firefighting Procedures**
- Confining and smothering metal fires is preferable rather than applying water. Corrosive substances in contact with metals may produce flammable hydrogen gas.

#### 5.2 Special hazards arising from the substance or mixture

**Unusual Fire and Explosion Hazards**
- Avoid generating dust; fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard.

**Hazardous Combustion Products**
- Fire or high temperature may create: Toxic gases/vapours/fumes of metal oxides or oxides.

#### 5.3 Advice for firefighters

- Do not allow to enter drains, sewers or watercourses.
- Dike and collect extinguishing water.
Fire fighters should wear complete protective clothing including self-contained breathing apparatus.

**Section 6 - Accidental Release Measures**

6.1 Personal precautions, protective equipment and emergency procedures

**Personal Precautions**
- Warn everybody of potential hazards and evacuate if necessary. Avoid breathing vapors, dust, or spray mist. Avoid contact with skin and eyes. Wear protective clothing as described in Section 8 of this safety data sheet.

**Emergency Procedures**
- Avoid generation and spreading dust. Do not allow to enter drains, sewers or watercourses.

6.2 Environmental precautions
- Avoid discharge into drains, water courses or onto the ground. Dike and collect extinguishing water. Avoid generation and spreading dust.

6.3 Methods and material for containment and cleaning up

**Containment/Clean-up Measures**
- Allow product to cool/solidify and pick up as a solid. Avoid generating dust. Collect powder using special dust vacuum cleaner with particle filter or carefully sweep into closed container. Ensure that waste and contaminated materials are collected and removed from the work area as soon as possible in a suitably labelled container. For waste disposal, see section 13.

6.4 Reference to other sections
- Refer to Section 8 - Exposure Controls/Personal Protection and Section 13 - Disposal Considerations.

**Section 7 - Handling and Storage**

7.1 Precautions for safe handling

**Handling**
- Avoid handling which leads to dust formation. Avoid inhalation of dust and contact with skin and eyes. Avoid excessive heat for prolonged period of time. Do not handle broken packages without protective equipment. Good personal hygiene is necessary. Wash hands and contaminated areas with water and soap before leaving the work site. Change work clothing daily before leaving the work place. Wash contaminated clothing before reuse. Provide eye wash fountain in work area. have emergency shower available.

7.2 Conditions for safe storage, including any incompatibilities

**Storage**
- Store in a cool, dry, well-ventilated place. Keep at a temperature not exceeding 30°C.

**Incompatible Materials or Ignition Sources**
- Do not store together with foodstuffs. Keep away from reducing agents such as zinc, alkali metals, and formic acid.

7.3 Specific end use(s)
- Refer to Section 1.2 - Relevant identified uses.

**Section 8 - Exposure Controls/Personal Protection**

**Exposure Control Notations**

**Switzerland**
- Selenium (7782-49-2): Developmental Risk Groups: (Developmental Risk Group C) | Skin: (skin notation)

**Germany DFG**
- Selenium (7782-49-2): Carcinogens: (Category 3B (could be carcinogenic for man)) | Pregnancy: (no risk to embryo/fetus if exposure limits adhered to) | Skin: (skin notation)

**Exposure Limits Supplemental**

**Switzerland**

**Spain**
- Selenium (7782-49-2): Under Review: (0.2 mg/m³ VLA-ED)

**ACGIH**
- Selenium (7782-49-2): TLV Basis - Critical Effects: (eye and upper respiratory tract irritation)

**8.2 Exposure controls**

**Engineering Measures/Controls**
- Adequate ventilation systems as needed to control concentrations of airborne contaminants below applicable threshold limit values. Ensure that dust handling systems (such as exhaust ducts, dust collectors, vessels and processing equipment) are designed in a manner to prevent the escape of dust into the work area (i.e., there is no leakage from the equipment).

**Personal Protective Equipment**

9.2 Other Information

- No additional physical and chemical parameters noted.

Section 10: Stability and Reactivity

10.1 Reactivity
• No dangerous reaction known under conditions of normal use.

10.2 Chemical stability
• Stable under normal temperatures and pressures.

10.3 Possibility of hazardous reactions
• Not relevant.

10.4 Conditions to avoid
• Excess heat.

10.5 Incompatible materials
• Strong acids, strong reducing agents.

10.6 Hazardous decomposition products
• No hazardous decomposition products known.

Potential Health Effects

Inhalation

Acute (Immediate)  • Exposure to dust may cause irritation. May cause coughing and difficulties in breathing. Vapours may cause headache, fatigue, dizziness and nausea.

Chronic (Delayed)  • Repeated and prolonged exposure may affect the lungs and respiratory system.

Skin

Acute (Immediate)  • No specific symptoms noted. The molten product can cause serious burns. Exposure to dust may cause mechanical irritation.

Chronic (Delayed)  • Under normal conditions of use, no health effects are expected. Repeated and prolonged exposure may cause redness and irritation.

Eye

Acute (Immediate)  • No specific symptoms noted. Excessive concentrations of nuisance dust in the workplace may reduce visibility and may cause unpleasant deposits in eyes. Adverse symptoms may include the following: irritation, watering, redness.

Chronic (Delayed)  • Under normal conditions of use, no health effects are expected. Repeated or prolonged exposure to corrosive materials or fumes may cause conjunctivitis.

Ingestion

Acute (Immediate)  • Metallic taste. May cause stomach pain or vomiting.

Chronic (Delayed)  • Under normal conditions of use, no health effects are expected. Repeated or prolonged exposure to corrosive materials or fumes may cause gastrointestinal disturbances.

</table>

- The product components are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

12.2 Persistence and degradability

- The products solely consists of inorganic compounds which are not biodegradable.

12.3 Bioaccumulative potential

- Bioaccumulation is unlikely to be significant because of the low water solubility of this product.

12.4 Mobility in Soil

- Not considered mobile but soluble compounds may be produced by acidic conditions.

12.5 Results of PBT and vPvB assessment

- The PBT and vPvB criteria of Annex XIII to regulation (EC) 1907/2006 does not apply to...
inorganic substances.

12.6 Other adverse effects

- No studies have been found.

Section 13 - Disposal Considerations

13.1 Waste treatment methods

Product waste
- Recover, reclaim or recycle if practical. Refer to manufacturer/supplier for information on recovery/recycling.

Packaging waste
- Contaminated packaging should be emptied as far as possible and after appropriate cleansing may be taken for reuse. Packaging that cannot be cleaned should be disposed of in agreement with regional waste disposal company.

13.2 Other Information

- When handling waste, consideration should be made to the safety precautions applied to handling of this product.

- Selenium 7782-49-2 3.0 % (ingredient to be classified with R20 instead of R23 and/or R21 instead of R24 and/or R22 instead of R25)

**Malaysia - Occupational Safety & Health Conc. Cut-Offs for Toxic Category**
- Selenium 7782-49-2 25.0 % (above this concentration ingredient to be classified with R23 and/or R24 and/or R25)

**Environment**

**Malaysia - Environmental Quality (Industrial Effluent) Regulations - Fifth and Eighth Schedules**
- Selenium 7782-49-2 0.02 mg/L Standard A; 0.5 mg/L Standard B

United Kingdom

**Environment**

**United Kingdom - Pollution Inventory - Schedule 1 - Thresholds for Releases to Air**
- Selenium 7782-49-2 100 kg

United States

**Environment**

**U.S. - CERCLA/SARA - Hazardous Substances and their Reportable Quantities**
- Selenium 7782-49-2 100 lb final RQ (no reporting of releases of this hazardous substance is required if the diameter of the pieces of the solid metal released is >100 µm); 45.4 kg final RQ (no reporting of releases of this hazardous substance is required if the diameter of the pieces of the solid metal released is >100 µm)

**U.S. - CERCLA/SARA - Section 313 - Emission Reporting**
- Selenium 7782-49-2 1.0 % de minimis concentration

**U.S. - RCRA (Resource Conservation & Recovery Act) - Basis for Listing - Appendix VII**
- Selenium 7782-49-2 Included in waste stream: F039

**U.S. - RCRA (Resource Conservation & Recovery Act) - Constituents for Detection Monitoring**
- Selenium 7782-49-2 (total)
U.S. - RCRA (Resource Conservation & Recovery Act) - D Series Wastes - Max Conc of Contaminants for the Tox Characteristic

- Selenium 7782-49-2 1.0 mg/L regulatory level

U.S. - RCRA (Resource Conservation & Recovery Act) - Hazardous Constituents - Appendix VIII to 40 CFR 261

- Selenium 7782-49-2 hazardous constituent - no waste number

U.S. - RCRA (Resource Conservation & Recovery Act) - List for Hazardous Constituents

- Selenium 7782-49-2 (total)

U.S. - RCRA (Resource Conservation & Recovery Act) - Phase 4 LDR Rule - Universal Treatment Standards

- Selenium 7782-49-2 0.82 mg/L (wastewater); 5.7 mg/L TCLP (nonwastewater)

U.S. - RCRA (Resource Conservation & Recovery Act) - TSD Facilities Ground Water Monitoring

- Selenium 7782-49-2 (total)

United States - Pennsylvania

Labor

U.S. - Pennsylvania - RTK (Right to Know) - Environmental Hazard List

- Selenium 7782-49-2

15.2 Chemical Safety Assessment

- A chemical safety assessment has been carried out for this product.

Section 16 - Other Information

Revision Summary

- Section 1 changed. Addition of further uses.
- Section 2 changed. Updated label elements.
- Section 4 changed. Added further information.
- Section 5 changed. Updated suitable extinguishing media.
- Section 7 changed. Added further information.
- Section 8 changed. Added recommendations to hand protection, respiratory protection, and skin/body protection.
- Section 9 changed. Added bioconcentration factor. Edited melting point, water solubility and vapor pressure to be consistent with information submitted under Regulation (EC) 1907/2006.
- Section 10 changed. Updated information to be consistent with information submitted under Regulation (EC) 1907/2006.
- Section 13 changed. Updated information for waste packaging.

Classification method for mixtures

- Calculation method.

Training advice

- Chemical hazard awareness training, incorporating labelling, safety data sheets, personal protective equipment and good hygiene measures. Chemical incident response training. First aid for chemical exposure including use of eye wash and safety showers. Use of personal protective equipment, including selection, compatibility, maintenance, standards and fit.

Last Revision Date

- 18/Febuary/2014

Preparation Date

- 04/Febuary/2014
